Racing Victoria Limited ACN 096 917 930
Annual Report for the financial period ended 30 June 2026

Chair's Report

Tim Eddy
Chair

Victorian racing had a great deal to be proud of in FY26, on the track and off it. This report sets out Racing Victoria's (RV) financial and operational performance for the year, together with the wider health of the Victorian Thoroughbred Racing Industry (VTRI), and I present it with real confidence in the direction this industry is travelling.

FY26 marked the point at which our work over the past two years translated into positive financial results. Following a period of substantial structural change and a series of planned deficits in the years after COVID, RV returned to surplus.

That outcome reflects disciplined decisions made over several years, including a sustained program of efficiency measures across the business and the consolidation of our media operations within RV, and it was achieved whilst maintaining returns to industry.

The Board's focus now rests on converting that improved financial position into long-term strength for the industry. RV carries no debt, maintains a sound balance sheet and holds assets that preserve our capacity to invest in the sport's future.

The consolidation of our revised funding model, incorporating an increased allocation of Point of Consumption Tax and a fixed annual contribution from the State Government, continued throughout the period with green shoots appearing for wagering engagement.

The State Government backed Victorian Racing Industry Fund (VRIF) and Major Racing Events Fund (MREF) also continued to fuel vital initiatives from welfare programs to tracks and facility upgrades, raceday entertainment and community engagement.

This Annual Report is published on the cusp of a state election on 28 November 2026 and it is pleasing to have both major parties commit their support for VRIF.

Earlier this year, a new study on the Size and Scope of the Victorian Racing Industry was released and it reaffirmed the importance of the three codes to the state.

In terms of the VTRI, we add $4.1 billion in value to the Victorian economy each year – up from $3.4 billion in 2018-19 – and drive 25,000 full-time equivalent jobs, many in regional Victoria. The study also quantified racing's social contribution with 960 community and charitable organisations supported through racing clubs.

Most significantly, the VTRI is a net contributor to Victoria, generating greater returns to the state than funding received. More specifically, racing generates $569 million in direct taxation in Victoria.

Our role in the community was further demonstrated in January when bushfires affected regional Victoria. Through the Racing for our Regions series, delivered with Country Racing Victoria (CRV) and VRIF, the industry raised more than $200,000 for the CFA & Brigades Donations Fund and the Strathbogie Disaster Relief Fund.

I was immensely proud of the way all within our industry responded during the bushfires and in the recovery phase. As I was when we handed a cheque for $150,000 to the Good Friday Appeal alongside CRV and Southside Racing, thus taking our donations in the last eight years past $750,000.

It's also important to support our own in times of need and we did that with over $900,000 in fuel relief for participants and raceday officials during the peak of the Middle East conflict.

With respect to finances, Aaron addresses that and our FY27 agenda in his CEO's report. My observation is simply that the industry's standing as the national benchmark is neither accidental nor assured. It rests upon the quality of our racing, the standard of our tracks and facilities, and the confidence of the wider community.

On the track, the season produced performances that deserve recognition, including an historic Cox Plate when the curtain fell on the Moonee Valley track as we know it with work now proceeding on its redevelopment.

Subsequent Victorian Racehorse of the Year Half Yours became just the 13th horse to complete the Caulfield Cup and Melbourne Cup double, and Jamie Melham the first woman to ride the winner of both Cups, a decade on from Michelle Payne's breakthrough at Flemington.

Craig Williams claimed a sixth Scobie Breasley Medal, 20 years after his first, together with a 10th Roy Higgins Medal to equal Damien Oliver's tally of metropolitan premierships. My congratulations to them, and to all others recognised at the Victorian Racing Awards.

FY26 was a period of evolution for the RV Board with the appointments of Peita Duncan and Jonathan Hardwick by the Minister for Racing in February.

Peita brings substantial experience in racing administration, governance, integrity and regulatory reform, including 10 years on the Board of Greyhound Racing Victoria, six of them as its Chair. Jonathan is the owner and Chief Executive of HFH Auto Group and brings more than 25 years of experience across law, agribusiness, manufacturing and the automotive sector, along with racehorse ownership.

These appointments followed the departure of Sharon McCrohan in September 2025 after eight years of tremendous service, with Tim Rourke succeeding her as Deputy Chair.

My thanks go to the Minister for Racing, The Hon. Anthony Carbines, for his ongoing support and commitment to the portfolio, along with newly appointed Shadow Minister for Racing, Tim McCurdy, who has a genuine passion for the sport.

I pay tribute to long serving Shadow Minister for Racing, Tim Bull, who announced during the year that he would not seek re-election after 16 years representing East Gippsland. Throughout that period, Tim was a committed advocate for our industry and for the many Victorians who derive their livelihood from it.

The bi-partisan support Victorian racing enjoys in Parliament is one of its great strengths, and it owes much to the contribution of people like Tim, who understood the central role racing plays in many country communities.

To my fellow directors, to Aaron and his Executive Team, and to all of our staff across the RV Group, I offer my sincere thanks for your tireless efforts over the past 12 months.

Our metropolitan and country clubs warrant particular recognition for the standard of racing, hospitality and community connection they delivered throughout the season.

Above all, I thank the owners, trainers, jockeys, stable staff and customers who invest in this sport. Administrative matters occupy plenty of commentary in any given year, but it is the racing itself that holds an audience, and that remains the foundation on which everything else is built.

Yours sincerely,

Tim Eddy
Chair

CEO's Report

Aaron Morrison
Chief Executive Officer

It is with great pleasure that I present the performance of RV for FY25, together with an overview of the key initiatives and activities undertaken to maintain and strengthen Victoria's position as Australia's and one of the world's leading thoroughbred racing jurisdictions.

In my first full year as Chief Executive, our key focus has been on improving promotion of the sport and engagement with a broader audience, striving for greater transparency and collaboration with industry stakeholders, ensuring our business model is lean and efficient, and maximising returns to participants and those who invest in our sport.

Whilst positive progress has been made on all of those fronts, there is still work to be done, and efforts to strengthen outcomes around those key strategic priorities will continue in FY26 and beyond.

In FY25, RV recorded a normalised net deficit for underlying business performance of $2.532 million, which was slightly better than budgeted. This comes after adjustments to exclude one-off accounting and non-business-as-usual activity. Our statutory reported net deficit was $8.885 million, which is an improvement on the $11.834 million reported net deficit in FY24 that came after a run of 11 consecutive surpluses.

Whilst macroeconomic headwinds and the transition of long-term industry funding arrangements were expected to place downward pressure on key revenue streams this year, maintaining strong returns to owners, participants and clubs and continuing to invest in world-class racing and training infrastructure has always remained a clear priority, and we are pleased to have been able to deliver on this.

To support this objective, RV implemented a business-wide efficiency program spanning the 2024 and 2025 reporting periods, which has delivered ongoing savings - a cumulative reduction in operational expenditure of $13.484 million over the two years. Decisions taken in the second half of FY25 are also expected to generate further annualised efficiencies in FY26 and beyond as we right-size our business and work towards returning to break-even whilst continuing to invest in growth.

Whilst the level of engagement in Victorian Thoroughbred Racing (VTR) remained strong, a range of factors led to a small decrease in the amount invested by active customers with wagering turnover declining by 4.0% to $7.611 billion. This total is 8.4% above pre-COVID levels and remains at nation-leading levels amongst Australian racing codes. With the increased PoCT rate coupled with regulatory uncertainty around Federal Government reforms, FY25 saw decreased investment in both customer marketing and promotions, compounding broader macroeconomic pressures impacting the wagering market.

Improving macro conditions and increased investment into our own content-led promotion saw wagering turnover on VTR bounce back in the second half of FY25, partially mitigating the wagering conditions experienced in the first half. I am pleased to report that early wagering figures obtained from the opening quarter of FY26 indicate that trend of consolidation and the positive momentum has continued.

FY25 saw a transition from the historic VicTAB Joint Venture (JV) arrangements to a new multiyear industry distribution model agreed between the State Government and the Victorian Racing Industry (VRI) which provides greater exposure to future growth in the wagering market sector with long-term certainty for racing in Victoria. Noting this substantial transition, combined revenue from wagering and government sources declined marginally by 1.1% to $421.821 million, representing an outperformance relative to our wagering turnover.

We made important and significant changes to the corporate governance structure of our owned media business, Racing.com Media (RDCM), which came under RV operational management from 1 January 2025, to better align these assets with our broader industry growth strategy and to realise important operational efficiencies.

With that strategic restructure now complete, a major focus of our media arm has been to consolidate the future of broadcasting for the sport, and advocate and promote the VTRI to the widest possible audience. I am delighted to report that we have made giant strides in that particular space, securing new long-term broadcast agreements with the Seven Network (free-to-air and digital), Foxtel and Kayo whilst also welcoming Western Australian racing into the RDCM fold, thus growing its audience.

The revamp of the media business continues into FY26 with the planned launch of the enhanced Racing.com website, the digital migration of vital industry publication Inside Racing, and the finalisation of the sale of industry-owned audio broadcast business and radio network, RSN Racing & Sports (RSN) to Sports Entertainment Network (SEN). Further, we also extended a range of major commercial media partnerships to ensure VTR is the most widely distributed racing product that reaches the biggest audiences, positioning the industry for further growth.

The ongoing growth in engagement post the COVID era has also been reflected in attendance figures, with total attendances at Victorian race meetings increasing by almost 5% in FY25 to 1.16 million. This was underlined by excellent crowd growth across all Spring Racing Carnival meetings, with the four days at Flemington over Melbourne Cup Week the highest attended race meetings in Australia in FY25, as attendances across the week grew 9% year-on-year.

It was pleasing to see this upward trend spread beyond metropolitan areas, with total attendance at country meetings up 10% from FY24 to FY25. Turnover was consistent with FY24 across the Country Cup meetings run during the Spring Racing Carnival, defying the broader first half wagering trends and underscoring the importance of country racing.

The introduction of Racing Forums in FY25 contributed markedly to our goal of increasing collaboration with industry stakeholders and clubs. They provided a platform for industry leaders to share ideas and work together methodically on key decisions and initiatives around our racing program.

RV's unwavering commitment to industry and participant support saw expenditure in this area increase by 13.9% to $35.286 million in FY25, with new workforce development programs and initiatives like mental health first aid workshops helping to ensure the highest standards of welfare for our participants and thoroughbreds.

Equine welfare continues to be one of the key pillars of our industry, and RV's $5.94 million investment into equine welfare through expenditure and capital investment across FY25 took our total investment since the 2017 introduction of a contribution from prizemoney to $44 million.

We have been focused on providing greater transparency on how the 2% contribution from prizemoney is being allocated to help improve equine welfare outcomes and maintain our social licence with several industry updates throughout FY25.

On the track, our veterinary protocols continue to set new global safety standards in FY25 as we celebrated the fourth consecutive Spring Racing Carnival without serious injury, whilst our Off The Track program continues to assist in the transition of thoroughbreds to life after racing by creating demand and promoting the unique versatility of the thoroughbred.

Our emergency aid program was the source of a key investment in FY25 with $800,000 in drought relief delivered to support more than 1,800 eligible thoroughbreds in the face of challenging conditions throughout country Victoria.

As we look ahead to FY26, our focus will be on a return to break-even whilst maintaining vital returns and support for participants and owners.
Our restructure and efficiency program throughout FY25 provides the foundation to achieve that objective, whilst we focus on engagement and support from punters for a great racing program.

At this juncture, I would like to extend my deepest gratitude to every industry participant and owner, who, along with our equine athletes, form the lifeblood of our great industry. I'd also like to thank all our metropolitan and country clubs for the pivotal role they play in showcasing our sport and engaging with the community – this is essential for the continued prosperity of the VTRI.

Finally, my thanks also go to the RV Board, led by Chair Tim Eddy, for their continued support and leadership; and to my Executive team and all RV staff members for their incredible contribution to ensuring the success and viability of VTR for the benefit of all.

Yours Sincerely,

Aaron Morrison
Chief Executive Officer

Racing & Programming

- Headlining a revamped prizemoney model in FY26 was the $5,000 increase to all professional country maidens in Victoria. This unprecedented level of investment represented an additional $7 million in funding for maiden races to boost the initial return that owners receive on their investment.

- Two of the Spring Racing Carnival's flagship races were run for record prizemoney in FY26 with the Lexus Melbourne Cup (3200m) increasing to a record $10 million in recognition of the engagement and financial returns it generates for racing and the economy, both in Victoria and nationally. To celebrate the historic final edition of the Ladbrokes Cox Plate (2040m) at the current Moonee Valley Racecourse prior to its major redevelopment, prizemoney for the 2025 edition of Australia's weight-for-age championship also increased to $6 million.

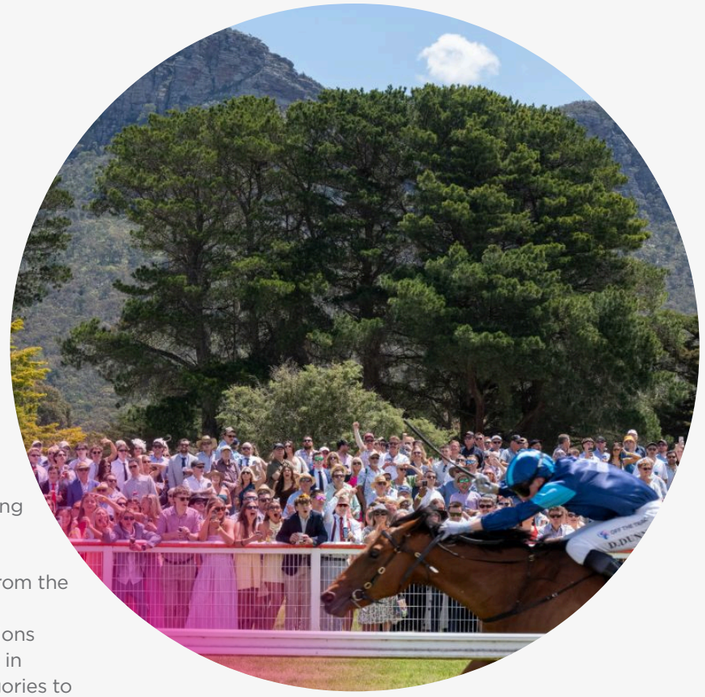

- The Ladbrokes Cox Plate (2040m) was the final race conducted at the famous Moonee Valley Racecourse prior to its major redevelopment and fans flocked to the historic meeting in their droves with attendances up 10% YOY to watch champion mare Via Sistina, her trainer Chris Waller and jockey James McDonald secure back-to-back Cox Plate victories. The trio would complete the Cox Plate-TAB Champions Stakes (2000m) double at Flemington a fortnight later for the second consecutive year.

- The Valley commenced its redevelopment after the Cox Plate meeting which saw four tracks chosen to host 16 transferred meetings on behalf of the Moonee Valley Racing Club (MVRC) – Southside Cranbourne, Southside Pakenham, Ladbrokes Geelong and Caulfield. These meetings were highlighted by the Group 1 William Reid Stakes (1200m) at Caulfield on Saturday, 21 March 2026, where Cindy Alderson and her born again sprinter Jigsaw claimed their maiden Australian Group 1 victory.

- Three Caulfield Group 1 races were repositioned among changes to the program for the 2025 Spring Racing Carnival and 2026 Festival of Racing with the Schweppes Thousand Guineas (1600m) returning from its mid-November timeslot to a place inside the Sportsbet Caulfield Cup Carnival, the Sportsbet Sir Rupert Clarke Stakes (1400m) also returning from mid-November to its previous position in the calendar on Saturday, 20 September 2025, and the Sportsbet C.F. Orr Stakes moving from its traditional February timeslot to maintain Group 1 racing on Saturday, 15 November 2025.

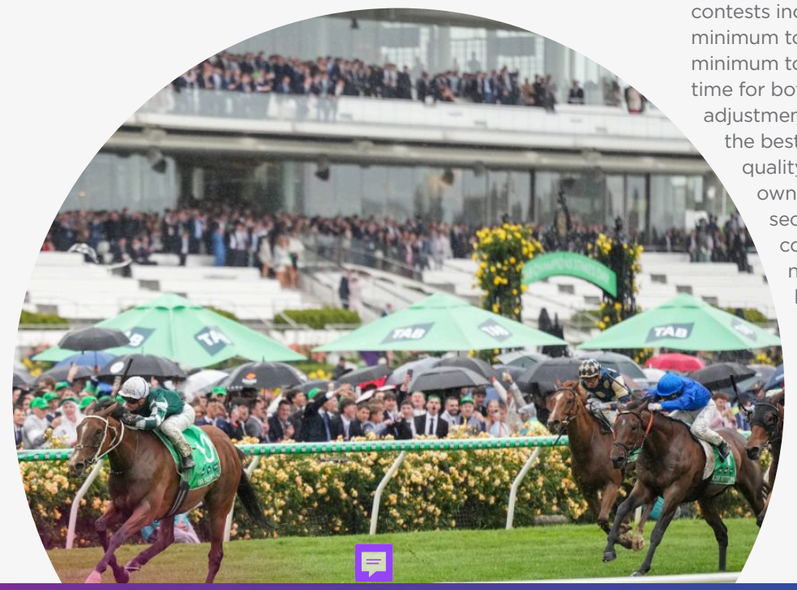

- The decision to shift Flemington's traditional New Year's Day meeting to New Year's Eve proved a major success with turnover increasing by 10% and crowds skyrocketing by 73% to 13,164 including Young Member attendances rising by over 233% as punters engaged prior to their evening celebrations.

- The Ladbrokes Moe Cup (2050m) moved from its traditional Friday timeslot in mid-October to Sunday, 16 November and was won by Cindy Alderson's Howlin' Rain while the Sportsbet Pakenham Cup (2500m) moved one week earlier to Saturday, 13 December 2025 to reduce the gap between the two Southside Slot Series races to three weeks and allow the Club to better engage a pre-Christmas crowd, with attendances increasing by 10%.

- Building on the foundations of a proposal from the Australian Trainers Association (ATA) and Thoroughbred Racehorse Owners Associations (TROA), RV adjusted the ratings categories in Victoria with the creation of four new categories to better serve the population of horses with handicap ratings in the 50s and 60s. These categories aimed to provide lower rated horses, which make up a sizeable portion of the horse population, with more chances to compete against similarly matched opposition. The new categories were introduced from 1 September 2025 and trialled throughout the remainder of the 2025-26 season, offering minimum prizemoney levels from $22,000 to $27,000. The sliding prizemoney scale aimed to create a clear point of difference between categories to foster more competitive racing, whilst rewarding progression up the ratings bands.

- A new scratching fee structure took effect from 1 February 2026 following consultation with all stakeholder groups to protect and enhance field sizes, which have declined over the past decade and continue to be challenged. A new standard scratching fee of $274.25 (ex GST) mirrored the current riding fee that RV is required to pay to the declared rider on a scratched horse. Maximising field sizes through managing the volume of scratchings promotes stronger wagering outcomes which ultimately benefits all through the maintenance of prizemoney and other returns to industry.

- A review into the handicap conditions for the Sportsbet Caulfield Cup and Lexus Melbourne Cup saw the minimum allotted weight for both marquee contests increased from 50kg to 51kg and the minimum topweight raised from 58kg to 59kg. A minimum topweight of 57kg at final acceptance time for both events was also reinstated with the adjustments aiming to provide both races with the best chance of attracting the highest quality field of horses and jockeys, and ensure owners and trainers have a broad cross section of jockeys to choose from. Further consultation saw the implementation of a new weight policy for all professional handicap races run in Victoria from the start of the 2025-26 season.

Victorian Racing Awards

2025-26 Victorian Racing Award Winners

Scobie Breasley Medal – Craig Williams
Victorian Racehorse of the Year – Half Yours
Most Outstanding Training Performance – Tony & Calvin McEvoy (Half Yours)
Tommy Corrigan Medal – Dean Parker
Colin Alderson Rising Star Award – Calvin McEvoy
VJA Damien Oliver Most Valuable Jockey – Jamie Mott
VJA Rising Star – Logan Bates
RV Acknowledged Retrainer of the Year – Yona & Nina Lloyd
RV Acknowledged Retrainer of the Year Runner-Up – Louise Abey

2025-26 Premiership Winners

Metropolitan Trainer – Ciaron Maher (104 wins)
Metropolitan Jockey – Craig Williams (65 wins)
Metropolitan Apprentice – Luke Cartwright (44 wins)
Victorian Trainer – Ciaron Maher (220 wins)
Victorian Jockey – Jamie Mott (128 wins)
Victorian Apprentice – Luke Cartwright (70 wins)
Country Trainer – Ben, Will and JD Hayes (131 wins)
Country Jockey – Will Gordon (109 wins)
Country Apprentice – Bailey Kinninmont (33 wins)
Picnic Trainer – Troy Kilgower (30 wins)
Picnic Jockey – Shaun Cooper (40 wins)
Jumps Trainer – Symon Wilde (11 wins)
Jumps Jockey – Dean Parker (11 wins)

1. Tony & Calvin McEvoy
2. Yona & Nina Lloyd
3. Dean Parker
4. Luke Cartwright
5. Jamie Mott
6. Logan Bates

2025-26 Feature Race Winners

1. Half Yours cemented his place in history as the 13th horse to complete the Caulfield-Melbourne Cup double
2. An incredible fourth Cox Plate in a row for James McDonald as he and Via Sistina went back-to-back
3. Jamie Melham became the first female jockey to win the Caulfield Cup aboard Half Yours
4. Streisand was on song to deliver Clinton McDonald a second Blue Diamond in three years
5. Ceolwulf (right) faired best in the howling rain to win a thrilling Champions Mile
6. Tom Kitten again got his head in front where it matters most to win back-to-back All-Star Miles
7. Tentyris produced a devastating turn of foot in the Coolmore to secure his place on Darley's stallion roster
8. Farag defied top weight to etch his name into Jericho Cup folklore
9. Celine Guadray secured her first ever Melbourne Cup ride after Torranzino landed the Geelong Cup
10. Jigsaw put it all together to win the second edition of The Meteorite
11. Big Wigs carried some famous silks to victory in the $1m Showdown
12. Instigator (left) proved age is just a number with a perfect Grand Annual swansong

Owners & Breeders

In FY26, a total of 61,762 people experienced the thrill of owning a racehorse in Victoria, which represents a slight decrease on the FY25 figure of 64,706. Notwithstanding the fractional decline, Victoria still boasts more registered owners, part-owners and owners aged 25 or younger than any other racing jurisdiction in Australia, while registered syndicate members are almost double that of the next placed state.

Owners Digital Ticketing Platform

Racing Victoria (RV), with the valued support of the Victorian Government, launched a new dedicated owners digital ticketing platform in FY26 to modernise and enhance the raceday experience for racehorse owners.

The project was delivered in partnership with the Thoroughbred Racehorse Owners Association (TROA) and with the support of Country Racing Victoria (CRV) and Victoria's race clubs, realised through a significant investment from the Victorian Government's Victorian Racing Industry Fund (VRIF) with a focus on supporting owners and encouraging participation in the sport.

Phase 1

From September 2025, Phase 1 of the project allowed owners to access the platform to obtain a digital copy of their Victorian Owner Gold Card for immediate use.

This ensured that owners permanently had their pass with them on their phone, providing seamless and efficient racecourse entry prior to collecting any additional raceday ticketing ahead of Phase 2.

Phase 2

A successful trial of Phase 2 saw the integration of raceday ticketing at select race meetings throughout July 2026, allowing owners to log in to access and share their digital admission, members' reserve and mounting yard tickets, plus hospitality entitlements.

The full integration of raceday ticketing was launched at the start of the 2026-27 season and made available for all Victorian race meetings.

Victorian Owners and Breeders Incentive Scheme (VOBIS)

In FY26, $15.5 million in VOBIS prizemoney, bonuses and vouchers was distributed to participants, making VOBIS the richest incentive program in Australian racing.

Open exclusively to VOBIS Gold and VOBIS Platinum horses, the Premier Race Series offered $5.6 million in prizemoney, bonuses and vouchers across 17 premium races.

Offering in excess of $7.5 million in vouchers each season, the VOBIS Platinum program continues to support owners, breeders, trainers and syndicators by incentivising reinvestment in the Victorian industry. Since its inception, more than $9 million in VOBIS Platinum vouchers has been won.

In FY26, 70 stallions were nominated to the VOBIS Sires program, ensuring their progeny are eligible for the lucrative VOBIS Platinum bonuses and vouchers.

The results of a comprehensive review of the VOBIS program, comprising customer research, stakeholder submissions and analysis of racing and VOBIS data, were analysed in FY26 with enhancements implemented for the start of the 2026-27 season to provide greater consistency and clarity across the program.

2026 Victorian Breeding Awards

- Racing Victoria VOBIS Nominator of the Year - Godolphin
- Racing Victoria VOBIS Sire of the Year - Blue Point
- Racing Victoria VOBIS Trainer of the Year - Ben, Will & JD Hayes
- Racing Victoria VOBIS Horse of the Year - Flying Done

Infrastructure & Projects

FY26 saw RV and CRV strengthen our investment in regional racing through the creation of a dedicated Country Tracks and Facilities Coordinator, a role created to provide greater support to country clubs in the preparation and maintenance of racetracks across Victoria.

Complementing this initiative, RV added three Regional Track Managers to increase our network to 10, further enhancing raceday track management, inspections and support throughout the state.

Thanks to strong support from the State Government's VRIF and contributions from clubs, and/or CRV and RV, several improvements to racing infrastructure were either completed or started across the state in FY26. These include:

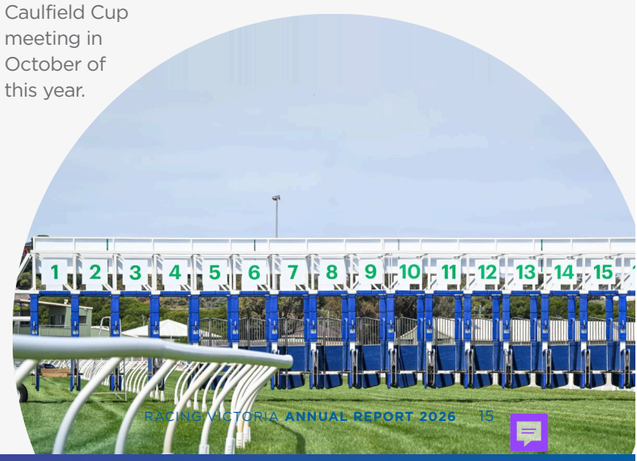

- The redevelopment of the The Valley commenced in October 2025, rendering the track offline until the targeted return date of Spring 2027. The new racecourse complex will feature a reconfigured track with a new surface and an extended home straight, as well as new horse areas and new facilities for both racing administration and customers.
- The Benalla course proper underwent a full reconstruction with the installation of a sandy loam track and an upgraded drainage system. Key improvements also included the reinstatement of the 2,300-metre chute to provide greater flexibility in race starts and distances, as well as the widening of the track from 16 metres to 19 metres.
- Following the 2025 Bendigo Cup meeting, the Bendigo course proper was fully resurfaced on a kikuyu turf base to improve turf health, racing condition and drainage. The track has since returned to racing and is regarded as one of the premier surfaces in Victoria.
- The Ballarat Synthetic track underwent a full resurface in FY26 and has since returned to racing after being given an extended period of consolidation.
- To allow for better drainage and movement of horses, the tie-up stall precinct was reworked at Sale, while a new bank of stalls was built at Warracknabeal.
- Irrigation installations and upgrades have been carried out at over 30 racecourses in recent years, with Swan Hill and Stony Creek two of the most recent recipients.
- The continuation of other programs of upgrades included jockey rooms, judges and stewards' towers, barrier stalls, vet areas, ambulance tracks and plastic running trails.

These upgrades have helped contribute to a 50% reduction in transferred and abandoned meetings over a 12-month period, despite an abnormally high volume of heavy tracks encountered during the 2026 calendar year.

RV's Rider Development Centre was also unveiled at the end of FY26. The state-of-the-art facility features a dedicated mechanical horse room, fully equipped gym, physiotherapy and treatment rooms, and training areas that will enhance coaching and skill development for riders across all stages of their development, from trackwork riders through to senior jockeys.

Beyond its rider development functions, the facility will also serve as a hub for industry education and collaboration, boasting a versatile space that can host stakeholder events and strengthen connections across the Victorian racing industry.

Infrastructure improvements, both major and minor, will continue throughout FY27, spearheaded by the resurfacing of the Caulfield course proper, which commenced following the Caulfield Cup meeting in October of this year.

Workforce Development

Stable Start™

Stable Start™, RV's entry-level education program for people seeking a career in the VTRI, continued to provide an important introduction to stable employment and industry training opportunities.

In FY26, 45 participants completed the program, which provides practical experience in horse handling, welfare and workplace safety. Delivered in partnership with the Racing Education Centre, Stable Start™ remains an accessible pathway for individuals looking to commence a career in racing, while also supporting existing stable employees to formalise their qualifications and progress to further training opportunities.

In addition to Stable Start, 104 enrolments were recorded across Certificate III Trackwork Rider qualifications, riding skill sets and mandatory stablehand units during FY26. These training opportunities help develop a skilled workforce while ensuring participants have access to clear pathways for career progression within the industry.

Trackwork Rider Program

RV's Trackwork Rider Program continued to offer aspiring riders structured, practical training within a racetrack environment.

Delivered at Cranbourne and Pakenham, the program provided 16 participants with access to specialist coaching and skill development, supporting the safe acquisition of trackwork riding competencies. The initiative remains a key component of RV's participant development pathway, helping riders build the experience required to pursue long-term careers in racing stables and related industry roles.

Rider Development Squad

The Rider Development Squad (RDS) continued to play a vital role in developing the next generation of trackwork riders and potential apprentice jockeys, with 77 riders participating in the program during FY26.

Educational sessions covered nutrition, sports psychology, goal setting, form analysis, race replay reviews, race tactics and communication, while conditioning programs provided opportunities to further enhance riding skills and personal wellbeing.

Current and former jockeys including Jaylah Kennedy, Steven King, Tiani Chapman and Jett Stanley also contributed to the program, assisting with mechanical horse sessions and sharing valuable industry knowledge and experience with participants.

School Tours

RV continued to engage secondary school students through its school tour program, providing structured, behind-the-scenes experiences that showcase the breadth of career opportunities available within the thoroughbred racing industry.

Targeted primarily at students undertaking equine studies programs, the tours were conducted across racecourses and training centres throughout Victoria and highlighted the diverse range of industry roles available beyond riding, including veterinary services, stewarding, media, administration and stable operations. The program also plays an important role in challenging perceptions of the industry and educating students on the high standards of equine welfare that underpin Victorian racing.

During FY26, 160 students participated in tours across metropolitan and regional Victoria, including students from Box Hill Institute, Box Hill Institute Bellarine, Hillcrest College, GOTAFE and local learning and employment networks. With participants typically approaching working age, the initiative continues to serve as an important introduction to potential careers within racing and a pathway into RV's workforce development programs.

Schools-Based Stablehand Training

RV's partnership with education providers continued to create pathways for young people to gain the skills and qualifications required to enter the racing industry.

During FY26, 80 students completed stablehand training with 60 Box Hill Institute students undertaking a program at Pakenham and a further 20 Box Hill Institute Bellarine students completing training at Geelong.

The training incorporated practical horse handling and workplace-based learning experiences, helping students develop the knowledge, confidence and capabilities required for future employment within the VTRI.

Pony Club Victoria Ride to Time Partnership

RV's partnership with Pony Club Victoria (PCV) continued to strengthen grassroots engagement with young riders across the state through the Ride to Time program.

Throughout FY26, RV visited 15 Pony Club and attended every zone qualifying event held across PCV's ten zones, with Workforce Development Program Coach and professional jockey Tayla Childs playing a key role in the program's delivery. Designed to develop pace awareness, control, judgement and riding safety, Ride to Time provides participants with practical riding experiences while introducing them and their families to the many career opportunities available within the racing industry.

The 2025 Ride to Time State Championships were held at The Valley on Moir Stakes night with 20 finalists from across Victoria qualifying through regional events to compete in the Maiden and Open divisions. Riders were challenged to complete a 1000-metre course as close as possible to a predetermined benchmark time, demonstrating horsemanship, rhythm and pace judgement.

The championships were followed by RV's first ever Pony Club Rider Development Day, where 20 riders participated in mechanical horse coaching, strength and conditioning sessions delivered by the Victorian Institute of Sport, and educational workshops focused on the role of Stewards, participant protection and wellbeing, and equine welfare. Eight parents and guardians also attended the day, which was held in RV's new state-of-the-art Rider Development Centre at RV headquarters in Flemington.

With more than 30 Ride to Time sessions delivered annually across Victoria, the program continues to provide a strong connection between the equestrian and racing communities while supporting RV's

Apprentice Jockey Training Program

The Apprentice Jockey Training Program (AJTP) remained the cornerstone of RV's jockey development pathway during FY26, providing aspiring riders with the education, mentoring and practical support required to build successful riding careers.

As at 30 June 2026, 38 apprentice jockeys were enrolled in the four-year program, and nine riders had completed the formal training component of the program and continued to ride as claiming apprentices while transitioning towards full senior rider status.

Victoria also rejoined the National Apprentice Racing Series (NARS) in FY26, which was held across the six participating jurisdictions. A sextet of Victorian apprentice jockeys represented the state throughout the series, competing against their interstate peers and furthering their development through exposure to a variety of racing environments and conditions.

At the 2026 Apprentice Graduation and Awards Night, the following achievements were recognised:

- Victorian Jockeys Association Outstanding Apprentice Jockey in Training – Emily Pozman
- RV Elite Apprentice Jockey Award – Jaylah Kennedy
- Andrew Gilbert Sports Science Award – Nadia Daniels
- Mikaela Claridge Sportsmanship Award – Thomas Prebble
- Wakeful Club Scholarship – Stephanie Hateley
- RV Coaches Award (new for 2026) – Sam Kennedy

The awards ceremony also saw nine new members formally welcomed into Victoria's Apprentice Jockey Squad (AJS), which serves as a pre-apprenticeship program and focuses on riders who have demonstrated the potential to progress to race riding within the next 12 months. Seven of those have since progressed into the AJPT.

Apprentice Jockey Squad intal

Integrity Services

RV's Integrity Services Department plays a central role in protecting the integrity, reputation and sustainability of the VTRI.

Equine Sample Collection

A total of 11,884 equine samples were collected during the 2025-26 racing season, with prohibited substances detected in 15 samples (0.12%).

A total of 1,150 equine samples were collected as part of RV's out-of-competition testing program.

Safety Record

Victoria's raceday fatality rate for flat racing remains among the lowest in the world of thoroughbred racing, and investment in equine welfare initiatives such as advanced diagnostic imaging continues to help reduce that rate further towards 0.00%.

In the 2025-26 racing season, there were 22 fatalities in flat racing in Victoria from 40,355 starts. This is equivalent to a fatality rate of 0.05%.

Additionally, RV's Jumps Taskforce welcomed the continued improvement in the safety record of Jumps Racing since the 16 safety and operational measures were adopted following an extensive review in 2024, which recommended a number of key changes to the program.

In the 2026 jumps racing season, which ran from late March until the middle of August, there were three fatalities in jumps races in Victoria from 371 starters. That is the same number as the 2025 season and is equivalent to a fatality rate of 0.8%, which remains down from the 1.2% recorded in 2024 prior to the review.

Spring Racing Carnival Veterinary Protocols

RV continued to refine its world-leading Spring Racing Carnival veterinary protocols in FY25 and last spring delivered a fifth successive Melbourne Cup Carnival without serious injury to a competing horse. The protocols remain underpinned by comprehensive veterinary assessments and advanced imaging requirements for international horses and Melbourne Cup contenders, reflecting RV's ongoing commitment to minimising injury risk and safeguarding horse welfare.

Enhancements for 2025 included a more streamlined CT scanning regime for international horses not nominated to compete in the Caulfield Cup, Cox Plate or Melbourne Cup, while all Melbourne Cup runners were required to undergo their final pre-race veterinary inspection in Victoria on the eve of the race, ensuring a consistent and comprehensive assessment process for every acceptor.

In a further strengthening of the protocols, RV also introduced access to Positron Emission Tomography (PET) scanning to provide additional diagnostic information where mandatory CT scans identify a potential concern, assisting veterinarians in making more informed decisions on a horse's suitability to compete.

Mandatory Respectful Workplace Training

RV continued its commitment to fostering safe, inclusive and respectful workplaces throughout the VTRI with the rollout of the mandatory Leaders Racing for Respectful Workplaces training program.

Developed with the support of the Australian Trainers' Association and informed by a series of successful pilot workshops, the program was designed to equip trainers, assistant trainers and forepersons with practical tools to promote positive workplace cultures and better manage workplace issues when they arise. The training addressed key topics including psychosocial hazards, bullying, harassment and the creation of psychologically safe working environments, using an interactive workshop format and racing-specific scenarios to ensure the content was relevant and practical for participants.

More than 1,000 participants completed the training through 19 in person workshops conducted across metropolitan and regional Victoria. Completion of the workshop became a requirement for licence and registration renewal for the 2026-27 racing season, ensuring workplace leadership standards remain aligned with contemporary community expectations and employment obligations.

The program formed part of RV's broader Respect at Work initiative and built upon previous mandatory workplace safety and behaviour training.

Formestane

In response to emerging scientific questions relating to formestane and a number of associated compounds, Racing Victoria commissioned the Racing Analytical Services Limited (RASL) to undertake a comprehensive international research study examining more than 15 target substances, including formestane and dehydroepiandrosterone (DHEA), in May 2026. The study has been initiated to further the industry's understanding of whether these substances, or their metabolites, may occur naturally within horses and, if so, at what concentration levels.

This represents one of the most significant studies of its kind undertaken by the Australian racing industry. Work is already underway and will involve Australian and international racing laboratories analysing a minimum of 1,000 equine urine samples over an anticipated 12 to 18-month period.

Importantly, the study will involve multiple independent laboratories, with the findings to be subject to peer review and publicly released upon completion. The research is intended to provide a stronger scientific foundation for future regulatory decision-making both in Australia and internationally.

Should the study determine that formestane and its metabolites occur naturally at low levels in racehorses, the findings may assist in informing future consideration of threshold-based regulation, consistent with the approach currently applied to other endogenous substances under the Australian Rules of Racing. Until that time, formestane remains a prohibited substance under the Rules of Racing.

Equine Welfare

Equine welfare remains central to the long-term sustainability of the VTRI, with RV continuing to invest in programs and initiatives that reduce injury risk, create demand for thoroughbreds beyond racing and provide a safety net when hardship arises, ensuring that thoroughbreds are supported at every stage of their lives.

RV invested $5.55 million in equine welfare in FY26, taking our total investment in equine welfare since the introduction of a prizemoney contribution in 2017 to over $50 million. This supported thousands of thoroughbreds across Victoria through a range of initiatives in FY26, including:

Bushfire Support and Emergency Aid

In January 2026, RV provided close to $150,000 in assistance from its Equine Welfare Fund to support more than 600 thoroughbreds impacted by bushfires across regional Victoria. The funding supported a range of immediate welfare needs including transport, relocation, feed and temporary stabling.

Beyond financial assistance, RV's Equine Welfare team played a key coordination role, working alongside industry participants, race clubs, government agencies and emergency refuge locations to facilitate the safe relocation and ongoing care of horses affected by the fires. This response highlighted the strength of the industry's welfare network and helped ensure thoroughbreds in impacted areas continued to receive appropriate care and support during a challenging period for regional communities.

In addition to emergency support measures, RV's Vulnerable Thoroughbred Programs provided assistance to 48 retired racehorses across the Companion Program, Emergency Aid Program and Short Term Assisted Recovery (STAR) Program. These initiatives continue to provide an important safety net for vulnerable thoroughbreds requiring short-term support, rehabilitation or intervention.

Transition Support Programs

During FY26, more than 400 Off The Track (OTT) thoroughbreds received support through RV's suite of transition programs.

Category	FY26 Spend (%)	FY25 Spend (%)
Post Racing, Safety Net & Visibility	44.1%	46.3%
Risk Reduced Racing (Injury Prevention)	20.6%	18.1%
Equine Welfare & Veterinary Operations	29%	30.0%
Industry Education & Reputation	6.3%	5.6%

Building on the initial success of the one-off husbandry support subsidy for horses entering the Acknowledged Retrainer Program, which was accessed by over 200 thoroughbreds in FY26, RV introduced a Retrainer Competition Subsidy in August to help encourage newly retrained thoroughbreds to gain competitive exposure in their new equestrian pursuit. The initiative provides Acknowledged Retrainers with a one-off $250 rebate on eligible competition entry fees, further incentivising the use of retired racehorses in equestrian disciplines.

To further assist with rehoming outcomes, RV's globally acclaimed Off The Track Community (OTTC) platform launched a new 'OTT Available' feature, enabling prospective owners to more easily identify horses that have completed retraining and are ready to embark on their next chapter.

The OTTC celebrated its fifth birthday during FY26 and remains one of the most comprehensive post-racing visibility systems in the world. From its launch in 2021 to the end of FY26, more than 12,800 location updates have been provided through the platform, including almost 8,000 with confirmed ownership details and over 4,000 with an emergency contact through the Full Circle program.

Off The Track Program

RV's OTT Program continued to experience strong growth throughout FY26, driven by increasing participation across competitions, education clinics and community initiatives designed to showcase the versatility of retired racehorses.

The inaugural Off The Track Carnival at Boneo Park - Victoria's largest and richest equestrian event dedicated to thoroughbreds - was an unequivocal success, attracting over 380 entries across four disciplines and 17 championship classes. Entries for the second edition, held in September, reached capacity within hours and saw 500 thoroughbreds compete across an expanded three-day carnival. The overwhelming response highlighted the growing popularity of retired racehorses and further strengthened the relationship between the racing and equestrian communities.

Participation in Off The Track-sponsored events reached record levels during FY26, with 6,157 thoroughbred entries recorded across the state, an increase of 16% year-on-year. Demand for RV's subsidised education clinics also increased, with 683 subsidies redeemed across the 94 clinics conducted throughout Victoria in FY26, almost double the amount from the previous year. These clinics provide valuable development opportunities for horses and riders alike, helping to build capable and confident OTT owners.

Community Engagement

In addition to maintaining a presence at major industry events such as the Inglis Premier Yearling Sale, Melbourne International 3 Day Event and Royal Melbourne Show, RV's equine welfare team hosted an activation in Flemington's Park Precinct during the 2025 Melbourne Cup Carnival (MCC) in partnership with Living Legends, Riding For The Disabled Victoria and Equine Pathways Australia.

With over 286,000 attending the MCC last year, activations like this introduce new audiences to the thoroughbred, showcase the care and support provided throughout a thoroughbred's life, and strengthen public trust and understanding of the industry's commitment to welfare.

RV also proudly supported the inaugural National Thoroughbred Week (NTW) in November 2025. In only its first year, over 1,000 people attended NTW activities hosted at RV Acknowledged Retrainer properties throughout Victoria, demonstrating strong community interest in retired racehorses and the plethora of post-racing pathways available to them.

Following the success of the inaugural event, RV looks forward to supporting the second edition of National Thoroughbred Week in 2026 and continuing to promote the suitability of thoroughbreds for a wide range of post-racing careers.

Welfare Checks

Members of the Compliance Assurance Team (CAT) conducted inspections involving 995 active and retired thoroughbreds across Victoria in FY26 to ensure appropriate welfare standards were being maintained. That figure is in addition to the 2,426 stable inspections undertaken by RV's Integrity Services Department, which continue to provide regular oversight of active thoroughbreds in training.

The Equine Welfare team also undertook proactive visits to RV's network of over 50 Acknowledged Post-Racing Program Providers who care for hundreds of retired racehorses across the state, helping ensure high welfare standards are maintained across all stages of the thoroughbred life cycle.

Onsite Humane Euthanasia Program

During FY26, 199 thoroughbreds were humanely euthanised under RV's Onsite Humane Euthanasia Program (OHEP), ensuring eligible horses that satisfied the strict governing criteria received an appropriate end-of-life outcome when they had negligible prospects of recovery from a chronic injury or illness, or rehoming was no longer possible.

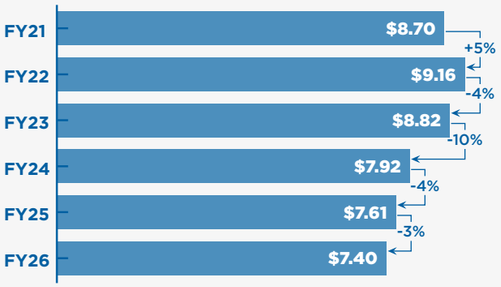

Wagering

Wagering turnover on Victorian Thoroughbred Racing (VTR) fell (-2.8%) year-on-year (YoY), driven partially by a reduced racing program, with approximately 160 fewer races conducted across the year due to programming changes and abandonments.

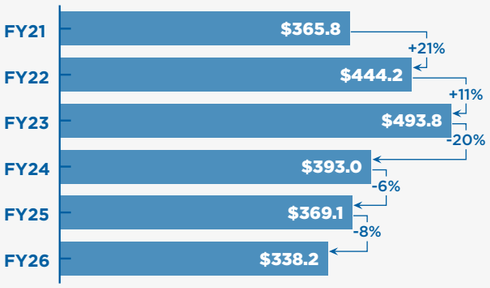

Challenging macroeconomic conditions and ongoing uncertainty surrounding the Federal Government's regulatory reforms weighed on VTR turnover, materialising in lower Wagering Service Provider (WSP) customer generosity spend (FBT -8.4%) and restrained marketing. Wagering on sport continues to grow in popularity among customers, reducing racing's share of overall customer wallet while also expanding the addressable market.

On an underlying basis, average turnover per race increased by 0.7%, indicating that the Victorian Thoroughbred Racing product remained resilient despite ongoing macroeconomic, regulatory and

TURNOVER ($BILLIONS)

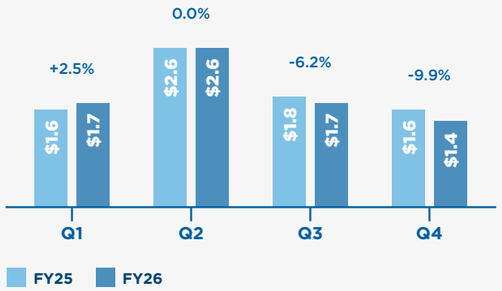

FREE BET TURNOVER ($MILLIONS)

Turnover Trends

Turnover was stable in the first half of the year (+1.0%), before deteriorating in the second half of the year (-7.9%).

TURNOVER ($BILLIONS)
By Quarter (YoY%)

H1

H1 FY26 delivered a comparatively resilient wagering result, with turnover increasing by 1.0% YoY to approximately $4.3 billion.

The Spring Racing Carnival once again demonstrated its popularity, with 19 of the top 20 turnover races run in Victoria between Turnbull Stakes Day (October 4) and Champions Day (8 November).

Across all meetings during the Spring Carnival period, total domestic turnover grew to $2.84 billion representing a +3.2% YoY increase, underscored by a successful Melbourne Cup Carnival at Flemington (+8.9% YoY). Turnover on the Melbourne Cup reached a record $247m, more than four times higher than any other race in the nation.

Caulfield Cup Carnival wagering improved +3.9% vs. 2024, highlighted by a +7.7% increase in Caulfield Cup Day turnover, which benefitted from the addition of the Thousand Guineas to the program. Turnover for the revamped Orr Stakes meeting at Caulfield was comparable to 2024, despite featuring one less G1 race (Thousand Guineas and Sir Rupert Clarke Stakes

TOP 5 TURNOVER RACES IN FY26	
1	Lexus Melbourne Cup
2	Caulfield Cup
3	Cox Plate
4	Victoria Derby
5	Coolmore Stud Stakes

on the 2024 program).

Cox Plate Carnival turnover was just below 2024 (-2.4%), impacted by softer field sizes for the Cox Plate meeting. The Cox Plate itself performed well given the small field (8 starters), and sits comfortably as the third biggest wagering race for the year in Victoria:

H2

Wagering conditions became more challenging during H2 FY26, with turnover declining (-7.9%) year-on-year to approximately $3.1 billion. The weaker result reflected a combination of fewer races, wet tracks, unfavourable customer results, the transfer of meetings away from The Valley during its renovation and broader macroeconomic headwinds.

Turnover on the Festival of Racing was marginally down year-on-year (-1.2%), however the prior year was artificially inflated by abandoned racing at Rosehill and Doomben on Australia Cup Day. Excluding Australia Cup Day, turnover on the Festival of Racing was up +3.5% YoY.

Bendigo Golden Mile Day was shifted to early May in 2026, replaced in early April by the Anniversary Vase meeting at Caulfield to ensure metropolitan racing was run alongside Day 2 of The Championships at Randwick. Turnover across the two meetings was up +9.1% YoY.

Twilight racing was popular with customers, delivering turnover of +17.5% on comparable day meetings in the second half of the year, supporting the view that wagering improves when the audience is more likely to engage with VTR.

Income Trends

Race fields income increased to approximately $228.8 million, up 2.2% on the prior year, despite the decline in total turnover and similar WSP margins. This outcome was supported by the full-year impact of race fields model changes introduced in FY25 and the continued shift of wagering activity toward digital and fixed-odds channels, which remain the key drivers of product fee income.

Point of Consumption Tax distributions increased to approximately $129.8 million, due to one-off auditing by the Department of Treasury and Finance. State Government funding provided an additional source of long-term funding certainty under the new industry distribution arrangements.

Content, Media & Marketing

FY26 was about future-proofing Racing Victoria's (RV) media business. Long-term agreements secured distribution, rights and revenue to the end of the decade, while a new content and broadcast strategy rebuilt how Victorian racing reaches audiences and promotes itself.

A softer wagering advertising market saw media revenue ease to $83.1 million (-2.7% year-on-year). Media services expenditure fell $6.1 million to $54.4 million, largely reflecting lower supply and distribution costs under new supply chain arrangements. This delivered an operating surplus (before club media rights payments, depreciation and amortisation) of $28.7 million (+15.4% year-on-year). Media rights payments to race clubs were $33.0 million, up $2.2 million on FY25.

Content & Broadcast

RV's Content & Broadcast division, including Racing.com, exists to deliver Australia's best live racing coverage and showcase Victorian racing to as many people as possible.

Racing.com reached an average of 867,000 unique viewers a month across Seven, Foxtel, 7plus, Kayo and its own platforms. Audiences streamed 4.9 million hours of live racing, and Racing.com's Melbourne Cup Carnival audience grew 7.5 per cent.

Beyond broadcast, the new Media & Content Strategy (Grow Racing. Build Audiences. Make People Care.) positioned Racing.com as the content engine for Victorian racing, with one team producing for broadcast, web, RV's 17 owned social accounts and the Spring Racing Carnival channels. These delivered more than 400 million impressions, 108 million video views and 190,000 new followers. YouTube became a key channel with 3.2 million views, and The Verdict podcast passed 15,000 downloads in its first 10 episodes.

Racing.com also made equine welfare and life after racing a regular part of its coverage, with 40 dedicated stories. Off The Track Carnival coverage at Boneo Park drew more than 274,000 video views, and the Melbourne International Three Day Event campaign delivered more than 977,000 views with no paid promotion.

Key Media Partnerships

New and extended agreements signed in FY26 secure the long-term future of Racing.com and the wider media operation.

- Sky - domestic and international: A new agreement with Sky Racing (Sky) took effect on 1 March 2026. It extends domestic arrangements and, for the first time, brings RV's international distribution into the partnership with Sky and Tabcorp, moving North American, UK, Irish and European distribution from Sports Information Services (SIS) to Sky. It sits within a broader long-term commercial partnership between RV and Tabcorp.

- **Melbourne Cup Carnival on Racing.com:** Racing.com secured Melbourne Cup Carnival broadcast rights from 2025 to 2029 through a sub-licence agreement finalised on the eve of the 2025 Carnival. Despite the short lead time, it attracted a four-day carnival sponsorship, and Kia increased its investment across the week.

- **Racing South Australia:** The Racing South Australia (RSA) media rights agreement and the South Australian production agreement held by Thoroughbred Racing Productions (TRP) were renewed to 31 July 2030, with Racing.com Media holding exclusive rights to all RSA media content from 1 August 2026. A new commercial structure removes fixed cost while keeping South Australian racing alongside Victorian racing.

- **New racing on Racing.com:** Racing.com added Tasmanian racing through a showcase agreement covering 10 free-to-air meetings a year, including Tasmania's key cup days and a Ladbrokes Live Under Lights night series.

- A new UK agreement through Sky and IMG covers 42 feature meetings, starting with the Cheltenham Festival on 10 March 2026.

- **World Pool and international distribution:** World Pool is a Hong Kong Jockey Club (HKJC) initiative that brings the world's best races, particularly Group 1s, into commingled pari-mutuel pools. Bigger pools attract punters worldwide, deliver significant returns to host clubs and help build a genuine international circuit of premium racing.

- In a strong endorsement from the HKJC, 109 Victorian races across feature Spring and Autumn racedays in Melbourne will be part of World Pool in 2026-27, up from 30 in 2025-26 and more than any other Australian jurisdiction.

- The increase reflects the quality of Victorian racing and RV's close relationship with the HKJC, which also includes Hong Kong racing coverage on Racing.com and a staff exchange program that has run successfully for two years. During FY26, RV also took back its World Pool rights from SIS under a new HKJC agreement and now manages them in-house, working more closely with Tabcorp.

- New Zealand distribution, which RV manages directly, was extended to 2030. Revenue from these international arrangements flows to clubs after limited cost recovery by RV.

Sale of RSN to SEN

The sale of RSN Racing & Sports (RSN) to Sports Entertainment Network (SEN), flagged as a subsequent event in last year's report, was completed on 1 September 2025. A new six-year radio partnership with SEN guarantees coverage of

Victorian racing, and daily live coverage continued uninterrupted through the handover. RV thanks the RSN team for their long contribution to Victorian racing.

Outside Broadcast: Satellite to LiveU

At tracks without a Digital Video Network (DVN) connection, TRP moved outside broadcasts from satellite trucks to cellular and Starlink delivery via LiveU. After trials in July 2025 and a first standalone broadcast at Donald on 2 December 2025, 37 of the season's 38 remaining non-DVN meetings switched to LiveU from February 2026. This cuts per-meeting costs by more than 80 per cent, saving around $500,000 a year once fully in place.

Industry Promotion

This Is How We Spring returned for a second year, lifting unprompted recall from 41 to 54 per cent, with TV and social the strongest drivers.

RV worked closely with clubs to win the home market. Isentia analysis of coverage from 28 September to 25 October 2025 shows Victorian races held 65 per cent share of voice in Victoria, with three of four key Victorian races outperforming their NSW equivalents and a cumulative audience of more than 70 million.

RV also hosted British content creator Stephen Power (Racing Blogger) to take the Spring Carnival to an international audience. His content resonated most strongly at home, drawing more than 44 million social views.

Industry Support

RV thanks participants, clubs, and wagering, commercial and media partners for supporting Racing.com and the wider media business through FY26. Their willingness to help tell racing's stories is what lets the sport reach new audiences.

Industry & Community Support

Participant Welfare and Wellbeing

Significant investment in participant welfare continued during FY26, delivering programs and initiatives that support jockeys, trainers and stable staff.

Close to $2.7 million was invested in jockey welfare initiatives, including fully funded public liability and personal accident insurance, specialist medical and wellbeing support and the Jockey Assistance Program which includes 24/7 sports psychology. This funding also underpins the Emergency Relief Fund which supports current and retired riders, career transition and education assistance, and equipment replacement assistance following racing incidents.

Since the introduction of the trainer and stable staff welfare contribution in February 2024, more than $5.2 million has been invested in industry support programs. A key initiative is the WorkCover Support Service, delivered with the Australian Trainers' Association, providing safety, risk management and injury claims support to more than 120 major stables. The service has reduced average return-to-work times for injured staff by 55%, with longer-term benefits expected to help stabilise WorkCover premiums over the next two to three years.

Dedicated wellbeing and participant protection resources were strengthened, alongside Stableline, the industry's free and confidential 24/7 counselling service. Education and workplace culture initiatives included Wellbeing Musters, Mental Health First Aid training and Leaders Racing for Respectful Workplaces workshops.

Additional support was provided through the HR Assist Service, offering employment advice and workplace guidance, and the Thurgood Duckling Fund which delivered emergency relief to participants experiencing hardship.

Throughout FY26, RV also completed or absorbed into practice the key recommendations from the Racing Integrity Commissioner's review of VRI victim support and complaint processes. This included the Victorian Thoroughbred Racing Restorative Engagement Program which was delivered by Alfi Health and for which applications were taken up to the final quarter of FY26.

Fuel Relief

RV provided temporary business support subsidies in April and May 2026 to offset fuel cost pressures caused by the Middle East conflict. More than $900,000 in fuel relief was delivered to participants and raceday officials, complementing over $1 million in emergency drought and bushfire assistance provided across FY25 and FY26.

Health & Safety

RV is committed to promoting safe and healthy workplaces, facilities and operations across the VTRI and to supporting the physical and psychological wellbeing of participants and employees. During FY26, RV worked collaboratively with participants, Clubs, CRV, the ATA, employee representatives and WorkSafe Victoria to support ongoing improvements in health and safety across the VTRI.

Environment, Social and Governance Initiatives

Building a sustainable future for the VTRI remains a priority and is an important consideration in major strategic and operational decision making. Preparations for climate-related sustainability reporting are underway ahead of mandatory reporting requirements, and RV continues to review its Environment, Social and Governance (ESG) risks and opportunities. Current focus areas include:

Environment

- Managing capital projects with consideration for environmental impacts.
- Supporting sustainable infrastructure and operational decision-making.
- Encouraging efficient and responsible use of water and energy.
- Strengthening climate-related governance and reporting capability.
- Improving the industry's resilience to climate related risks, including heat, fire, flood and severe weather.

Social

- Promoting world-leading equine welfare outcomes.
- Protecting the health, safety and wellbeing of participants, staff and officials.
- Creating opportunities for rewarding careers.
- Advocating for diversity, equity, inclusion and respectful workplaces.
- Supporting regional communities through investment in the VTRI.
- Strengthening the VTRI's positive contribution to the broader community.

Governance

- Maintaining effective risk management and control frameworks.
- Fostering a culture of integrity, accountability, transparency and ethical decision-making.
- Monitoring emerging and relevant regulatory and public policy developments.
- Strengthening oversight of privacy, cybersecurity and data governance risks.
- Enhancing modern slavery and responsible procurement practices within supply chains.

Charitable Contributions

In addition to providing financial and social support to the VTRI, RV again made worthy contributions to a number of charities and community groups throughout FY26.

Following January 2026 bushfires that heavily impacted thoroughbred participants around Longwood, a major fundraiser at a Seymour raceday generated over $200,000 for the CFA & Brigades Donation Fund and Strathbogie Disaster Relief Fund. These funds, which supported first responders and the local rebuild, were on top of $175,000 in emergency aid provided by RV to bushfire affected participants.

Seymour was the first of four Racing For Our Regions events created in conjunction with CRV and VRIF to thank and recognise the efforts of the firefighters and volunteers on the front line. The others were at Alexandra, Towong and Kyneton racedays.

RV proudly continued its support of the Good Friday Appeal, which generates vital funding for the Royal Children's Hospital. RV was joined by CRV and Southside Racing in donating $150,000 to the 2026 appeal which saw the VTRI's donations to the Good Friday Appeal surpass $1 million over the past eight years. RV also made important contributions to the RSL ANZAC Day Appeal, Fight MND and the Children's Cancer Foundation.

Beyond RV, racing clubs have continued to raise funds for charities and local community organisations. Through their charity pins, the metropolitan clubs collectively raised over $900,000 in 2025 for Ronald McDonald House Charities (VRC), Challenge – Supporting kids with cancer (MRC) and Myeloma Australia (MVRC). CRV also continued its significant fundraising for Cystic Fibrosis (CF) via the annual 'Break a Sweat for CF' event which supports CF sufferers including leading jockey Harry Coffey.

Other notables included the MRC Foundation Charity Family Day which raised over $200,000 for a range of organisations, and the VRC's Melbourne Cup Tour National Sweep, which saw the Apex Club of

Directors' Report

The directors of Racing Victoria Limited (Racing Victoria or the 'Company') submit herewith the annual financial report of the company for the financial year ended 30 June 2026. In compliance with the provisions of the *Corporations Act 2001 (Cth)* (Corporations Act), the directors' report follows.

The names of the directors of the Company during or since the end of the financial year are as follows.

CURRENT DIRECTORS

TIM EDDY (Chair)

APPOINTED DIRECTOR 9 DECEMBER 2019 AND CHAIR 21 JUNE 2024

Mr Eddy had a successful 40-year career at Ernst & Young including the positions of Managing Partner Operations - Oceania, Global Vice Chair – EY Global Services and National Managing Partner – EY Transaction Advisory Services. He currently serves as a Director of Western Sydney Airport, Chair of The Red Fox Group, Rennie Advisory and Bio101 Financial Advisory.

Mr Eddy is a member of the Racing Victoria Audit, Risk & Welfare Sub Committee and the Racing Sub Committee. Mr Eddy is Chair of the Racing Victoria & Country Racing Victoria Steering Committee and the Racing Victoria Members Consultative Committee. Mr Eddy is a Director of Racing Australia and is also Chair of Equine Welfare Advisory Council.

TIM ROURKE (Deputy Chair)

APPOINTED DIRECTOR 14 JUNE 2024 AND DEPUTY CHAIR 30 SEPTEMBER 2025

Mr Rourke has extensive business experience and is the current Chief Executive Officer and director of CitiPower, Powercor, United Energy and related companies. Mr Rourke also currently serves as a director of Energy Networks Australia.

Prior to his current appointments, Mr Rourke has held various senior positions across the energy sector since 1995 and is also an active thoroughbred owner and breeder.

Mr Rourke is Chair of the Racing Victoria Audit, Risk & Welfare Sub Committee. Mr Rourke is also a member of the Racing Sub Committee.

AARON MORRISON (Chief Executive Officer)

APPOINTED 20 AUGUST 2024

Prior to his appointment as CEO, Mr Morrison was the Chief Financial Officer / Chief Operating Officer of Racing Victoria since 2017. Mr Morrison has had an extensive career across the entertainment, hospitality and gaming sectors including as Chief Executive Officer of the Sand Hill Road Group and senior executive and advisory positions with Crown Resorts Ltd and SkyCity Entertainment Group.

Mr Morrison is a Director of Racing Victoria subsidiaries; Racing.com Media Pty Ltd, RVL Media Pty Ltd, Thoroughbred Racing Productions (Victoria) Pty Ltd, VTRI Property Pty Ltd, VicRacing Audio Services Pty Ltd (formerly 3UZ Pty Ltd), and VicRacing Pty Ltd.

KATE JOEL

APPOINTED DIRECTOR 9 OCTOBER 2017

Ms Joel has been a business consultant for over 30 years and currently serves on the Board of the Florey Institute of Neuroscience & Mental Health, having served on the Florey Foundation since 2017. Previously, Ms Joel was CEO of Leonard Joel Auction House and was a member of the Melbourne and Olympic Parks Trust and the Board of Harness Racing Victoria. Prior to joining the Board, Kate served on the RV Integrity Council from 2014-2017. Kate grew up riding trackwork and her involvement in the racing industry spans over 55 years.

Ms Joel is Chair of the Racing Integrity & Equine Welfare Sub Committee.

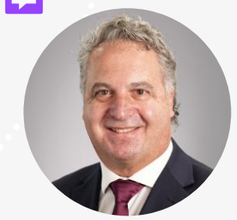

ROSS LANYON OAM

APPOINTED DIRECTOR 9 OCTOBER 2017

Mr Lanyon is the Managing Director of ENG Media which operates in Regional Victoria. He has received an OAM for his services to thoroughbred racing and the Community of Mildura and was the Chair of Country Racing Victoria from 2011 to 2014. Mr Lanyon is Chair of the Mallee Health Foundation and is also a Director of Mildura District Hospital Fund and Clay Hero.

Mr Lanyon is a Director of Thoroughbred Racing Productions (Victoria) Pty Ltd. Mr Lanyon is also a member of the Racing Victoria & Country Racing Victoria Steering Committee and the Racing Integrity & Equine Welfare Sub Committee.

CURRENT DIRECTORS (CONTINUED)

PAUL GUERRA

APPOINTED DIRECTOR 1 MARCH 2022

Mr Guerra has extensive business experience across a breadth of industries including CEO roles at each of the Melbourne Football Club, the Victorian Chamber of Commerce and Industry, and the Royal Agricultural Society of Victoria. Mr Guerra has also held Senior Executive and Director roles across Asia Pacific with UnitedHealth Group, Vodafone and Motorola. Mr Guerra's significant Board experience also includes previous Chairman roles with the Queen Victoria Market and Myagi amongst others.

MARK PLAYER

APPOINTED DIRECTOR 14 JUNE 2024

Mr Player has been a highly respected member of the international thoroughbred racing and breeding industry for more than 25 years, working in senior positions at the Hong Kong Jockey Club and New Zealand Thoroughbred Marketing.

Mr Player founded International Thoroughbred Solutions in 2011, an independent thoroughbred consultancy business where he remains a Director.

Mr Player is Chair of the Racing Sub Committee.

PEITA DUNCAN

APPOINTED DIRECTOR 5 FEBRUARY 2026

Ms Duncan is an experienced racing administrator and company director with more than a decade of governance and leadership experience in the Victorian racing industry and other boards.

Ms Duncan served on the Board of Greyhound Racing Victoria for 10 years, including six years as Chair. Ms Duncan brings extensive experience in governance, integrity and welfare, commercial strategy and stakeholder engagement, with particular strength in government relations and complex regulatory environments.

Ms Duncan is a member of the Racing Integrity & Equine Welfare Sub Committee and the Racing Victoria & Country Racing Victoria Steering Committee.

JONATHAN HARDWICK

APPOINTED DIRECTOR 5 FEBRUARY 2026

Mr Hardwick has extensive business experience and is the current Chief Executive Officer and Owner of HFH Auto Group.

Prior to his current business, Mr Hardwick was Chief Executive Officer of Hardwick Meats Kyneton. He holds a Bachelor of Laws and a Bachelor of Commerce.

Mr Hardwick is a member of the Racing Victoria Audit, Risk & Welfare Sub Committee.

The names of directors of the Company that ceased during or since the end of the financial year are as follows:

Sharon McCrohan Appointed Director 9 October 2017 and Deputy Chair 21 June 2024. Resigned as Deputy Chair and Director 30 September 2025.

OFFICERS

Simonette Foletti Company Secretary; appointed 1 January 2024

PRINCIPAL ACTIVITIES, STRATEGY AND OBJECTIVES

The consolidated entity's principal activities in the course of the financial period were related to the administration and promotion of thoroughbred racing in the State of Victoria.

Racing Victoria has a critical stewardship role to lead the Victorian Thoroughbred Racing Industry (VTRI), with a focus on growing the sport and ensuring the ongoing sustainability of the industry as a whole, for the benefit of all industry stakeholders.

Racing Victoria's key goals and objectives are to:

- ✓ *Manage thoroughbred racing to maintain Victoria's pre-eminence;*
- ✓ *Maintain the highest standards of integrity and equine and participant safety and welfare;*
- ✓ *Manage the racing calendar to maximise engagement;*
- ✓ *Encourage sustainable participation;*
- ✓ *Meet social obligations;*
- ✓ *Optimise economic benefits;*
- ✓ *Ensure efficient operation of the industry;*
- ✓ *Focus on sustainable industry funding;*
- ✓ *Advocate and promote the industry;*
- ✓ *Maintain independence.*

DIVIDENDS

Under the Company's constitution no dividends may be declared or paid.

REVIEW OF OPERATIONS

The net surplus of the consolidated entity for the financial year ended 30 June 2026 was $0.773 million compared to a net deficit of $8.885 million in the prior year.

The consolidated entity reported a net surplus in 2026 following two consecutive years of planned budget deficits. The result reflects the first full reporting period under the revised industry funding framework, together with a continued focus on financial sustainability and disciplined cost management.

The 2026 reported result also reflects the impact of several items outside normal business operations, including matters relating to historical periods, investment return volatility, and one-off strategic initiatives undertaken for the future benefit of the VTRI. Following adjustment, the normalised net surplus result of $3.101 million reflected a significant improvement on the prior year.

Racing Victoria Group (RVG) Result	2026 $ million	2025 $ million
RVG Reported Net Surplus/(Deficit)	**0.773**	**(8.885)**
Restructure liability	-	1.723
VicRacing Audio Services Pty Ltd net asset movement[1]	0.860	2.659
Historical claims	(0.550)	1.386
Investment volatility against expected rate of return	1.163	(0.167)
Participant fuel subsidy support	0.855	-
Other	-	0.585
RVG Normalised Net Surplus/(Deficit)	**3.101**	**(2.699)**

1 Key driver was asset impairment, based on the actual sale price of assets sold by VicRacing Audio Services Pty Ltd

Maintaining returns to owners, participants and clubs remained a strategic priority throughout a period of economic uncertainty. To support this objective, management implemented a business-wide efficiency program over the 2024 to 2026 reporting periods.

After adjusting for non-recurring items and inflation-related expenditure impacts, the program generated gross cumulative operating expenditure savings of $21.393 million, surpassing the $20 million target committed to the industry. The successful delivery of the program demonstrates the consolidated entity's disciplined approach to cost management and operational efficiency, enhancing financial capacity to support strategic industry initiatives while maintaining investment in the long-term sustainability and growth of the racing industry.

RVG Operational Expenditure	2026 $ million	2025 $ million
Operating	59.859	61.658
Wagering services	3.566	4.978
Media operations	47.878	56.821
Reported Operational Expenditure	**111.303**	**123.457**
Adjustments:		
Non BAU – Restructure liability	-	(1.723)
Non BAU – Historical claims	-	(1.386)
Reclassification of prior year amounts	1.529	-
Estimated remuneration and fixed cost inflation[2]	(3.237)	(2.844)
Revised Operational Expenditure	**109.595**	**117.504**
Gross Year-on-Year Reduction Assessment	7.909	

2 Primarily includes labour remuneration increase and contracted expenditure indexation.

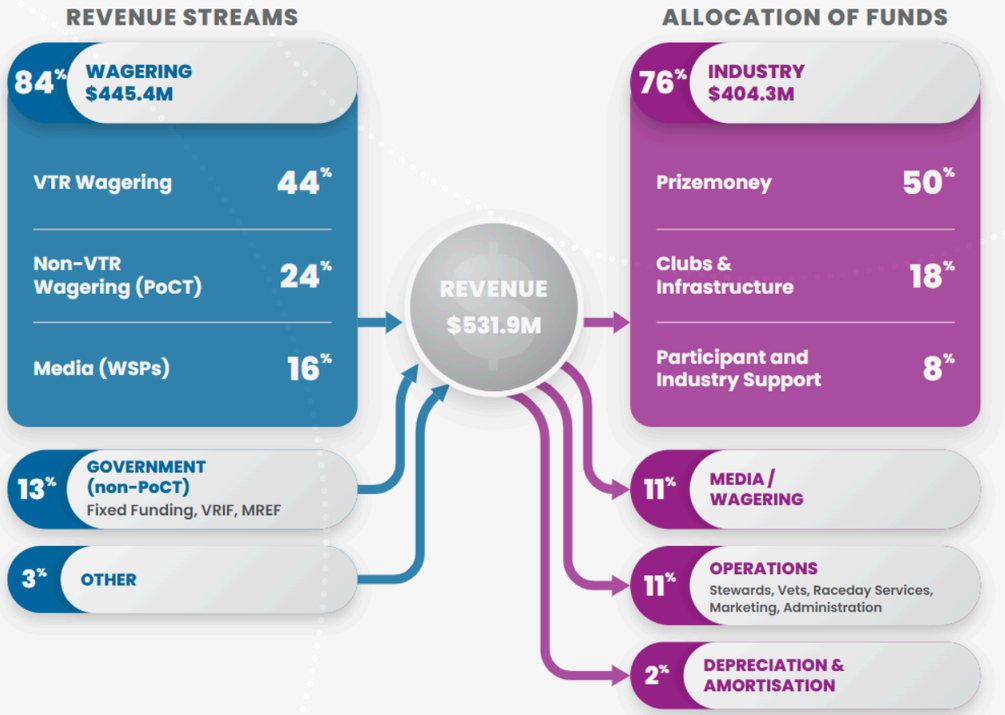

Reporting Period	Gross Reduction $ million
2024	6.863
2025	6.621
2026	7.909
Total	**21.393**

The Racing Victoria business model is designed to generate sufficient revenue to enable ongoing investment in the delivery of world-class racing and to support the long-term sustainability of the VTRI and its various participants and stakeholders.

The consolidated entity has a significant reliance on wagering-related revenue, with approximately 84% of total revenue derived either directly from race fields product fees or indirectly through media rights fees and Point of Consumption Tax (PoCT) distributions, each of which is influenced by wagering activity and performance.

Excluding the expenditure required to govern, operate, administer, market and promote Victorian thoroughbred racing, which represents approximately 11% of total revenue, the majority of Racing Victoria expenditure is directed towards funding, supporting, and growing the industry, its stakeholders and participant base.

The principal areas of income and investment are outlined below.

Revenue

The total revenue from operations increased by 1.0% to $531.882 million versus the prior year (2025: $526.501 million).

Total wagering revenue for the full year decreased by $2.558 million (-1.1%) versus the prior year, reflecting a full year under the revised industry funding framework following the cessation of the VICTAB Joint Venture in August 2024. The transition has materially changed the composition of wagering-related income, with race fields income, PoCT distributions and fixed State Government funding now forming the core wagering funding streams.

Total wagering turnover of approximately $7.39 billion (2025: $7.61 billion) represented a -2.9% decline on the prior year. This headline decline should be considered in the context of a reduced racing program, with approximately 160 fewer races conducted across the year largely reflecting strategic programming changes. On an underlying basis, average turnover per race increased by 0.7%, indicating that the Victorian thoroughbred racing product remained resilient despite ongoing macroeconomic, regulatory and wagering market pressures.

The wagering market continued to be influenced by cost-of-living pressures, higher product fees and taxes, increased regulatory scrutiny and reduced wagering service provider investment in customer marketing and promotions. Free bet turnover decreased by approximately 8.0% year-on-year, reflecting a continued tightening in Wagering Service Provider (WSP) generosities as operators managed margin pressure. These factors continued to place pressure on total turnover, although customer engagement and per-race wagering outcomes showed signs of stabilisation.

Race fields income increased to $228.8 million, up 2.2% on the prior year, despite the decline in total turnover. This outcome was supported by the full-year impact of race fields model changes introduced during the prior reporting period. Average yields remained marginally above prior year.

State Government funding provided an additional source of long-term funding certainty under revised industry distribution arrangements. The result for the reporting period was favourably impacted by a full twelve months of fixed State Government funding, compared with eleven months recognised in the prior period due to the August 2024 commencement date.

Victorian Racing Industry Funding (VRIF) grants were also received to fund infrastructure projects during the period and to support initiatives including major events, owners ticketing, and the VOBIS program.

Media revenue decreased by $2.311 million (-2.7%) to $83.061 million. The decline primarily related to a softening in the wagering advertising market that impacted on the revenue generated by Racing.com.

Funds under investment (excluding withdrawals) increased in value over the period, driven by continued interest income and growth in major financial markets. Total investment revenue, including realised gains/losses, unrealised gains/losses, dividends and interest income, was positive for the year at $3.577 million (2025: $6.359 million). Although investment returns were below budget expectations, the portfolio remained in a positive position despite periods of market volatility and uncertainty experienced throughout 2026.

Expenditure

Total expenditure for the full year decreased to $530.751 million (2025: $533.498 million).

Industry Expenditure

Industry expenditure reflects targeted funding and investment provided to owners, participants and clubs and accounts for the majority of the consolidated entity expenditure (76% of revenue).

- Prizemoney and VOBIS bonuses on offer remained in line with prior year at circa $316 million.
- The consolidated entity's contribution towards this expenditure increased marginally by $0.209 million (+0.1%) to $265.970 million. Savings arising from the planned reduced racing program were redirected towards strategic prizemoney enhancements, including key Spring Racing Carnival features and increases to country maiden race prizemoney. The variable nature of items such as bonus strike rates, field sizes, divided races and meeting abandonments also has an impact on the final contribution quantum.

- It should be noted that the consolidated entity's reported contribution does not include prizemoney directed to welfare programs, top-up contributions made by clubs and other entities, or any retained amounts.
- Club support including both direct funding and infrastructure related expenditure increased on prior year.
- Club funding expenditure increased by $1.469 million (+1.6%) to $91.422 million. The annual increase is largely due to indexation related arrangements and variable club funding streams. Club funding is undertaken in accordance with funding arrangements in place with each club, which have both fixed and performance-based components.
- Infrastructure expenditure increased by $1.447 million (+28.2%) to $6.573 million, driven by continued investment in infrastructure projects underway to support club growth and long-term development.
- Industry and participant support spend reflects the continued commitment to support the industry through various initiatives and programs.
- This support increased by $3.485 million (+9.5%) to $40.300 million, and most notably includes the participant and thoroughbred welfare programs that are primarily funded through the allocation of a small percentage of prizemoney on offer. Other forms of support include jockey ride fees, jockey insurance coverage, workforce development including the apprentice program, and owner initiatives. The increase on the prior year was primarily driven by rising jockey Workcover costs arising from an uplift in historical claims experience, fuel cost relief subsidies paid to jockeys and trainers, the implementation of new digital ticketing for owners, Victorian bushfire appeal support, and additional one-off support associated with the Australian Racing Museum's display exit from the National Sports Museum to pursue its revised strategy of adopting a more diverse exhibition model that showcases racing's rich history across a broader footprint.

Operational Expenditure (including Operating, Media & Wagering Expenditure)

Total operational expenditure decreased by $12.154 million (-9.8%) to $111.303 million.

Gross operational expenditure on a normalised basis decreased by $7.909 million (-6.7%) compared to the prior year. This outcome enabled the organisation to achieve its $20 million operational expenditure reduction target, as committed to stakeholders, while preserving important industry investments including prizemoney returns. The consolidated entity will continue to review operations and pursue further efficiencies to support sustainable financial outcomes in future periods. Initiatives undertaken during the reporting year included new arrangements across the media operational supply chain and targeted cost reductions within key service and administrative functions.

Operating expenditure captures the core costs of managing and administering the VTRI, including:

- racing operations (including race day services, vets and quarantine);
- integrity and stewarding;
- media and wagering;
- marketing, public relations and communications; and
- executive, strategy, administration, technology, legal, risk and compliance.

Highlighting operational expenditure separate from other expenditure activities allows for better external benchmarking and an assessment of the efficiency of the stewardship of Victorian thoroughbred racing operations. Management continues to pursue cost control and process efficiency improvements across all key activities.

Welfare and Community

Included within industry and operating expenditure is Racing Victoria's continued investment in welfare and community initiatives, as outlined below.

Equine welfare remains fundamental to the sustainability and integrity of the VTRI. Racing Victoria continues to invest in programs and initiatives that support the highest standards of care throughout every stage of a thoroughbred's life, both on and off the racetrack. Total expenditure on equine welfare during the reporting period was $5.063 million.

Racing Victoria also continued to provide essential programs and services that support industry participants and their families, while promoting health, safety and wellbeing across Victorian racing stables and training facilities. Total expenditure on jockey welfare (excluding Workcover) and participant welfare during the reporting period was $2.687 million and $4.438 million, respectively.

Following the devastating bushfires that impacted Victoria in early 2026, the Racing Victoria Bushfire Appeal provided important support to members of the Victorian racing community and bushfire-affected regions more broadly. The appeal raised in excess of $200,000, which contributed to a range of relief initiatives, including support for the Country Fire Authority, livestock transportation, accommodation assistance, and psychological services for affected individuals.

Racing Victoria also made meaningful contributions to a number of charitable and community organisations throughout the reporting period, including a significant contribution of $150,000 to the Good Friday Appeal in partnership with Country Racing Victoria and Southside Racing.

Investment Activities

Racing Victoria holds and invests financial assets on behalf of the VTRI as part of an Industry Sustainability Fund (ISF). The purpose of the ISF is to ensure that the industry retains sufficient funds to protect the long-term sustainability of the industry, support the operating financial position and maintenance of important industry support during times of operational uncertainty, provide funds to support important industry-wide capital infrastructure investments and to assist with finance and investment that may not be otherwise available.

The ISF framework defines its assets as those investments which have a broader industry benefit with an investment or commercial return objective, interest bearing loans with related parties (at discount to market rates), and land earmarked for development with a commercial return.

The consolidated entity engages Evans and Partners to manage and invest accumulated surplus cash that sits outside operating cash requirements. A balanced investment mandate is maintained, with investments made across various asset classes including cash, interest rate securities, Australian and international equities, property, infrastructure and alternative investments. The investment mandate and asset allocations are reviewed on an annual basis together with the governing investment policy.

At 30 June 2026 these financial assets totalled $62.557 million (2025: $57.839 million).

The increase from the prior year reflects the combined effect of growth in investment holdings and net deposits of $2.500 million arising from the surplus cash generated during the reporting period, partially offset by the impact of market volatility.

CHANGES IN STATE OF AFFAIRS

There was no significant change in the state of affairs of the consolidated entity during the financial year.

SUBSEQUENT EVENTS

On 19 August 2026, the Australian Parliament passed the Interactive Gambling Amendment (Gambling Reform) Bill 2026, introducing significant restrictions on wagering advertising and related promotional activities. The reforms are scheduled to commence from 1 January 2027 and are intended to reduce community exposure to wagering advertising and strengthen gambling harm minimisation measures.

Other than as disclosed above, no matter or circumstance has arisen since the end of the reporting period that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial periods.

FUTURE DEVELOPMENTS

Following the passage of the Interactive Gambling Amendment (Gambling Reform) Bill 2026, the consolidated entity will continue to assess the potential implications of the reforms. Uncertainty remains regarding the practical implementation of certain measures by WSPs and the extent to which the reforms may influence wagering activity and industry funding outcomes, noting that racing will be treated differently from other products and may be exempt from some of the restrictions otherwise applicable. The extent to which is still to be determined as regulations are implemented. As a result, the potential financial impact on the consolidated entity, if any, cannot presently be determined with reasonable certainty.

Other than as disclosed above, disclosure of information regarding likely developments in the operations of the consolidated entity and the expected results of those operations in future financial periods would be likely to result in unreasonable prejudice to the consolidated entity. Accordingly, such information has not been included in this report.

DIRECTORS' MEETINGS

The following table sets out the number of directors' meetings and committee meetings held during the financial period and the number of meetings attended by each director (while they were a director or committee member). During the financial year, 12 board meetings, 6 audit risk & welfare committee (ARWSC) meetings, 5 racing committee meetings, and 6 racing integrity & equine welfare committee (RIEWSC) meetings were held.

	BOARD		ARWSC		RACING		RIEWSC

Peita Duncan	6	5					3	3
Jonathan Hardwick	6	5	2	2				

INDEMNIFICATION OF OFFICERS AND AUDITORS

During the financial year, the consolidated entity paid a premium in respect of a contract insuring the directors of the consolidated entity, the company secretary and all executive officers of the consolidated entity and of any related body corporate against a liability incurred as such a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The consolidated entity has executed deeds of indemnity in favour of each of the directors. Each of these deeds provides for the consolidated entity to indemnify each director to the maximum extent permitted by law against:

- all liabilities incurred by the director as an officer of the consolidated entity and each subsidiary; and
- all legal costs and expenses arising from proceedings or an investigation incurred by the director as an officer of the consolidated entity or of a subsidiary.

The deeds also give the directors a right of access to board papers within their term for a period of seven years after their retirement and require the consolidated entity to maintain insurance cover for the directors. A director's right of access to board papers is subject to protection of the consolidated entity's legal professional privilege rights and to the director keeping the board papers in confidence.

The consolidated entity has not otherwise, during or since the financial year, indemnified or agreed to indemnify any officer or auditor of the consolidated entity or of any related body corporate against a liability incurred by such an officer or auditor.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is included on page 11 of the financial report and forms part of this directors' report.

ROUNDING OFF OF AMOUNTS

The company is a company of the kind referred to in Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183, dated 24 March 2026, and in accordance with that Corporations Instrument amounts in the directors' report and the financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

Signed in accordance with a resolution of the directors made pursuant to s.298(2) of the Corporations Act 2001.

On behalf of the directors

TIM EDDY
Chair

AARON MORRISON
Chief Executive Officer

Melbourne, 21 September 2026

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Racing Victoria Limited

I declare that, to the best of my knowledge and belief, in relation to the audit of the financial report of Racing Victoria Limited for the financial year ended 30 June 2026 there have been:

i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and

ii. no contraventions of any applicable code of professional conduct in relation to the audit.

Independent Auditor's Report

To the members of Racing Victoria Limited

Opinion

We have audited the ***Financial Report*** of Racing Victoria Limited (the Company).

In our opinion, the accompanying Financial Report of the Company gives a true and fair view, including of the ***Group's*** financial position as at 30 June 2026 and of its financial performance for the year then ended, in accordance with the *Corporations Act 2001,* in compliance with *Australian Accounting Standards - Simplified Disclosures* and the *Corporations Regulations 2001*.

The ***Financial Report*** comprises:

- Consolidated Statement of financial position as at 30 June 2026
- Consolidated Statement of surplus or deficit and other comprehensive income, Consolidated Statement of changes in equity, and Consolidated Statement of cash flows for the year then ended
- Consolidated entity disclosure statement and accompanying basis of preparation as at 30 June 2026
- Notes, including material accounting policies
- Directors' Declaration.

The ***Group*** consists of the Company and the entities it controlled at the year end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional and Ethical Standards Board Limited (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Other Information

Other Information is financial and non-financial information in Racing Victoria Limited's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and in compliance with *Australian Accounting Standards - Simplified Disclosures* and the *Corporations Regulations 2001*
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and that is free from material misstatement, whether due to fraud or error
- assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/media/apzlwn0y/ar3_2024.pdf. This description forms part of our Auditor's Report.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

1. Summary of Material Accounting Policies

The material accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the consolidated entity consisting of Racing Victoria and its subsidiaries.

Basis of preparation

Compliance with Australian Accounting Standards – Simplified Disclosures

These consolidated financial statements are general purpose financial statements for distribution to the members and for the purpose of fulfilling the requirements of the Corporations Act 2001. They have been prepared in accordance with Australian Accounting Standards – Simplified Disclosures made by the Australian Accounting Standards Board and the Corporations Act 2001.

For the purposes of preparing the consolidated financial statements, the consolidated entity is a not-for-profit entity. The financial statements were authorised for issue by the directors on 21 September 2026.

Historical Cost Convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities (including derivative instruments) at fair value through profit or loss.

The company is a company of the kind referred to in Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183, dated 24 March 2026, and in accordance with that Corporations Instrument amounts in the directors' report and the financial statements are rounded off to the nearest Australian thousand dollars, unless otherwise indicated.

The financial report has also been prepared in accordance with the terms of various agreements with the members (as defined at below) and the racing industry in Victoria as follows:

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

(i) Establishment of Operations

The consolidated entity was incorporated on 17 December 2001 for the purpose of administering the Victorian thoroughbred racing industry (VTRI) which was previously the responsibility of the Victoria Racing Club (VRC).

On 19 December 2001 the four thoroughbred racing bodies – VRC, Melbourne Racing Club, Moonee Valley Racing Club and Country Racing Victoria (collectively the members) entered into a Members Agreement with the consolidated entity. Under this agreement the members agreed to establish the consolidated entity as the new principal club and governing body for thoroughbred racing in Victoria. The VRC agreed to relinquish its status as the principal club and its role as governing body to facilitate the granting to the consolidated entity of that sole status and role. The consolidated entity has indemnified the VRC against any claims against the VRC arising from its previous operation of the thoroughbred racing industry in Victoria.

(ii) Current Membership

The current membership of Racing Victoria now comprises of:

Club members: Country Racing Victoria, Melbourne Racing Club, Moonee Valley Racing Club, Victoria Racing Club & Cranbourne Pakenham Racing Club. Industry body members: Australian Jumping Racing Association, Australian Services Union (Victorian Branch), Australian Trainers Association (Victorian Division), Australian Workers Union (Victorian Division), Media and Entertainment Arts Alliance, Thoroughbred Breeders Victoria, Thoroughbred Racehorse Owners Association, United Workers Union, Victorian Bookmakers Association & Victorian Jockeys Association.

(iii) Victorian Thoroughbred Racing Industry Revenue and Grants

On 16 August 2012, the Victorian Racing Industry (VRI) entered into joint venture arrangements with the Tabcorp group of companies covering the VRI entitlement to receive a distribution of joint venture profits and other program and product supply fees over a 12-year term. On 18 December 2023, a new Victorian wagering licence was awarded for the period beyond 16 August 2024. In connection with that new licence, the State Government and the VRI confirmed the discontinuation of the historical joint venture industry funding arrangements tied to the Victorian wagering licensee. To provide the VRI with greater certainty of its financial outcomes and to assist the transition to a new industry funding model, the joint venture parties agreed to amend and restate the joint venture arrangements covering the final period of the current licence from 1 June 2023 to 15 August 2024 including transition out. An Umbrella Deed was executed on 1 March 2024 which captured the terms of payments to be made to the VRI by Tabcorp in connection with the winding up and transitioning out of the joint venture.

New industry funding arrangements commencing from 1 July 2024 were agreed between the Victorian State Government and the VRI. These arrangements sought to maintain VRI funding at no less favourable levels to those under the previous joint venture arrangements and included:

- From 1 July 2024, the State Government increased the Point of Consumption Tax (PoCT) levied on wagering by Victorian residents, with the rate of PoCT collected increasing from 10% to 15% of Net Wagering Revenue (NWR). The VRI distribution payment agreed to be paid to the VRI by the State Government increased from 3.5% to 7.5% of NWR effective from the same date.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

- On 30 August 2024, the VRI together with the State Government executed the VRI Funding Deed. This ten-year agreement, which was backdated to commence on 16 August 2024, provides a new fixed industry distribution stream to the VRI.

The thoroughbred, harness and greyhound racing codes have agreed on an appropriate code sharing arrangement of the above VRI funding.

Material wagering income is also received by the VTRI in the form of race fields fees. Other significant income is generated via the exploitation of media rights in both domestic and international markets held by a fully owned subsidiary RVL Media Pty Ltd, advertising revenues received through owned media assets, returns from investments and the receipt of various Government grants.

The consolidated entity will endeavour to make grants to member clubs having regard to the following principles:

- The consolidated entity will from time to time make grants to members and participants in the Victorian thoroughbred racing industry for the purpose of encouraging thoroughbred racing.
- In making grants, the consolidated entity will seek to:

  (i) adequately support the objectives of the Victorian thoroughbred racing industry;

  (ii) provide incentives for club performance and achievements of industry objectives; and

  (iii) encourage and optimise participation in the ownership of thoroughbred racehorses throughout Victoria by maximising returns to owners through statewide prizemoney strategies and other incentives.

- The clubs further acknowledge that, consistent with the constitution of the consolidated entity, no portion or amount of the income or assets of the consolidated entity may be distributed, paid or transferred directly or indirectly by way of dividend, bonus, or otherwise by way of profit to or amongst the clubs in their capacity as members.

(iv) Retained Profits

Under the terms of the Members Agreement net profit and the ongoing retained profits of the consolidated entity cannot be distributed as dividends to the members.

Material Accounting Policies

The following material accounting policies have been adopted in the preparation and presentation of the financial report:

(a) AASB 15 Revenue from Contracts with Customers

VOBIS nomination fees received are deferred into unearned revenue, to be recognised as revenue in future years based upon the performance obligation of VOBIS bonuses on offer to eligible horses dependent on age.

(b) Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the consolidated entity's accounting policies, which are described above, management is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

Critical judgements in applying the consolidated entity's accounting policies

Judgements made by management in the application of the consolidated entity's accounting policies that have significant effects on the financial statements and estimates with a significant risk of material adjustments in the next period are disclosed, where applicable, in the relevant notes to the financial statements.

Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at balance date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

- **Impairment of Indefinite Life Intangible Assets**
  As described in note 23(g), the consolidated entity assesses the recoverable amount of indefinite life intangible assets, by estimating the future cash flows, growth and discount rate at the end of each annual reporting period.

- **Provisions**
  As described in note 23(c) and 23(l), the consolidated entity estimates the present value of current obligations based on management estimate for general provisions (including infrastructure expenditure), Workcover, employee provisions at the end of each annual reporting period.

- **Useful lives of Property, Plant & Equipment and Computer Software & Databases**
  As described in note 23(k), the consolidated entity reviews the estimated useful lives of property, plant and equipment at the end of each annual reporting period.

- **Contingent Liabilities**
  The consolidated entity makes judgement on any potential liability that may occur depending on the outcome of an uncertain future event. These liabilities are listed under note 21.

All other material accounting policies adopted in the preparation and presentation of the financial report are included under note 23.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

	30 JUNE 2026 $'000	30 JUNE 2025 $'000
2. Surplus / (Deficit) from Operations		
Revenue from operations consisted of the following items:		
(a) Wagering Revenue		
VicTAB joint venture distributions (i)	3,767	11,310
Race fields revenue	228,809	223,824
	232,576	235,134
(b) Government Funding		
PoCT distribution (ii)	129,798	127,361
Fixed industry distribution (iii)	63,000	55,716
Racecourse infrastructure program funding	715	1,699
Other Government funding (iv)	4,757	1,911
	198,270	186,687
(c) Media Revenue		
Media rights revenue	44,656	42,513
Channel sponsorship and advertising revenue	17,452	25,057
Media assets revenue (v)	8,603	8,987
Other media revenue (vi)	12,350	8,815
	83,061	85,372

(i) Joint venture between Tabcorp & VRI ended on 15 August 2024. Reporting year inclusive of payments made by Tabcorp to the VRI in connection with the winding up and transitioning out of the joint venture.

(ii) PoCT distributions are derived from Victorian resident wagering on all products, including sport. The rate of PoCT set by the State Government is 15% of NWR, with an amount equivalent to 7.5% of NWR then being on paid by the State Government to the VRI.

(iii) From 16 August 2024, a ten-year arrangement between the State Government and the VRI commenced that provides a new fixed industry distribution stream to the VRI (refer note 1(iii)).

(iv) State Government funding support of program initiatives including VOBIS, major events, owners ticketing and equine welfare limb injury prevention.

(v) Publications and photography sales revenue.

(vi) Inclusive of arrangements with both Racing SA and the Hong Kong Jockey Club (HKJC).

Notes to the financial statements

Rental income (viii)	814	1,006
Other revenue	3,512	2,147
	14,398	12,949
Investment income (ix)		
Distribution income	923	1,382
Interest income	2,523	3,025
Dividend income	1,036	729
	4,482	5,136
Other gains and losses (ix)		
Net (loss) / gain on disposal of investments	(525)	215
Net (loss) / gain arising on financial assets designated as FVTPL	(380)	1,008
	(905)	1,223
	17,975	19,308

(vii) Refer note 1(a) for VOBIS nomination revenue recognition methodology.

(viii) Rental from leasehold tenancy arrangements at 400 Epsom Road, Flemington, Victoria.

(ix) Evans and Partners are engaged to manage accumulated surplus funds that sit outside operating cash requirements.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

	30 JUNE 2026	30 JUNE 2025
	$'000	$'000
2. Surplus / (Deficit) from Operations (continued)		
Surplus/(deficit) has been arrived at after charging the following expenses:		
(e) Industry Expenditure		
Prizemoney		
Prizemoney (x)	253,940	255,695
VOBIS	12,030	10,066
	265,970	265,761
Club funding		
Fixed funding	32,861	32,465
Track and infrastructure funding	15,850	16,785
Wagering funding	9,664	9,817
Media rights funding	33,047	30,886
	91,422	89,953
Infrastructure expenditure		
Infrastructure operations expense	1,307	689
Infrastructure capital vested with clubs (xi)	5,266	4,437
	6,573	5,126
Participant support		
Jockey ride fees	15,134	15,497
Jockey Workcover expense	6,535	5,191
Jockey welfare expense	2,687	3,364
Participant support (xii)	4,438	4,642
	28,794	28,694
Industry support		
Equine welfare expense (xiii)	5,063	5,580
Other industry support (xiv)	6,443	2,541
	11,506	8,121
	404,265	397,655

(x) Whilst VTRI prizemoney and bonuses on offer exceed $316 million, amounts reported exclude contributions from member clubs and other third parties, as well as amounts deducted and retained for equine, jockey and participant welfare contributions (which total 3.5% of prizemoney: 2% equine, 1% jockey, 0.5% participant). Noting participant contributions temporarily increased from 0.5% to 1.0% between 1 February 2024 and 31 July 2025.

(xi) Direct project management by racing clubs.

(xii) Participant welfare and workforce development. Reporting year inclusive of fuel subsidy support. Prior year inclusive of commitment to support rising trainer Workcover premiums amongst other initiatives.

(xiii) Investment in the welfare of thoroughbreds, including supporting a range of initiatives before, during and after racing.

(xiv) Owner initiatives and Australian Racing Museum (ARM) support. Reporting year inclusive of additional one-off support to assist the ARM exiting its display from the National Sports Museum, the implementation of digital ticketing for owners, aiding participants impacted by the 2026 Victorian bushfires, and other governance provisioning.

(xx) Prior year inclusive of one-off staff costs due to organisational restructure activity and historical indirect tax liability.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

	30 JUNE 2026	30 JUNE 2025
	$'000	$'000
2. Surplus / (Deficit) from Operations (continued)		
Expenses from ordinary activities include:		
Employee benefits expense	42,298	45,796
3. Current Trade and Other Receivables		
Trade and sundry receivables (i)	12,309	19,522
Industry funding receivables (ii)	22,022	21,307
Wagering receivables (iii)	15,609	19,156
Allowance for doubtful debts (iv)	(828)	(415)
	49,112	59,570

(i) Most trade receivables arise from transactions with trainers and racing clubs with credit periods provided at 60 and 30 days respectively.

(ii) Amounts to be received through the State Government for the thoroughbred share of the VRI PoCT distribution payment are paid 60 days in arrears.

(iii) Most wagering receivables arise from transactions with WSPs for race fields fees and media rights, with credit periods provided at 15 and 30 days respectively.

(iv) A provision has been made for estimated non-recoverable amounts from receivables, determined by reference to past default experience. Loss allowances for receivables are measured at an amount equal to lifetime Expected Credit Losses (ECLs). When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the consolidated entity considers reasonable and supportable information that is relevant and available without undue cost or effort. This is determined by reference to past default experience.

Allowance for doubtful debts at the beginning of the period	415	343
- Bad debts written off	(51)	(52)
- Doubtful debts movement taken to surplus or deficit	464	124
Allowance for doubtful debts at the end of the period	828	415

Loans to related party – Cranbourne Pakenham Racing Club (i) (ii)	4,240	4,221
	18,241	10,157
	69,695	65,166
Non-Current:		
Financial assets measured at amortised cost		
Loans to related party - Victoria Racing Club (ii)	7,906	7,578
Loans to related party – Cranbourne Pakenham Racing Club (ii)	2,514	2,894
Loans to related party - Sports Wagering Integrity Monitoring Ltd (iii)	878	853
	11,298	11,325

(i) Racing Victoria has advanced $4.000 million to Cranbourne Pakenham Racing Club. This loan is connected with a Call Option Deed and will convert to the consideration for the acquisition of development land at Pakenham racecourse following its formal sub-division and title.

(ii) Racing Victoria provided loans to Victoria Racing Club and Cranbourne Pakenham Racing Club. Loan principals of $9.600 million and $4.506 million respectively are provided at discount-to-market rates on deferred repayment terms and are recognised at amortised cost. Repayment timing and discount rates are reviewed and adjusted annually.

(iii) Racing Victoria has provided a loan to Sports Wagering Integrity Monitoring Ltd (SWIM) to fund the capital costs of developing a transaction level wagering and betting monitoring system. Interest is being capitalised at market rates.

8. Investments accounted for using the Equity Method

Name of Entity	Principal Activity	Balance Date	Ownership Interest		Carrying Amount	
			2026	2025	2026	2025
					$'000	$'000
Racing Australia Ltd (i)	Racing Information	30/06/2026	35%	35%	15,326	14,824
VicRacing Audio Services Pty Ltd (previously 3UZ Pty Ltd) (ii)	Racing Audio	30/06/2026	73%	73%	2,180	3,040

	30 JUNE 2026	30 JUNE 2025
	$'000	$'000
Movements in investments in associates		
At the beginning of the financial period	17,864	19,752
Share of net loss	(358)	(1,888)
At the end of the financial period	17,506	17,864

(i) Significant influence is derived over Racing Australia Ltd through the Board's appointment of a nominee director and the exercise of a veto. Pursuant to a shareholder agreement the consolidated entity has the right to cast 35% of the votes at a shareholder meeting.

(ii) The consolidated entity holds a 73.25% interest in VicRacing Audio Services Pty Ltd.

VicRacing Audio Services Pty Ltd has the power to exercise with and only with the authority of a director resolution passed by a majority:

- For a special resolution, this means a resolution of directors passed by a majority that together holds more than 50% of the total voting rights and consists of member representation from at least two code members, or
- For a super special resolution, this means a resolution of directors passed by a majority that together holds more than 50% of the total voting rights and consists of member representation from all three code members.

Therefore, whilst significant influence over the acquired entity exists, the Racing Victoria Group does not have the necessary control for it to form part of the consolidated financial statements and therefore the investment is required to be equity accounted for under AASB 10.

19. Related Party Disclosures

(a) Equity interests in associates

Details of interests in associates are disclosed in note 8 to the financial statements.

(b) Key management personnel compensation

Details of key management personnel compensation including directors are disclosed in note 16 to the financial statements.

(c) Transactions with key management personnel

During the financial period the consolidated entity did not enter into any transactions with related entities of key management personnel.

During the financial period the consolidated entity entered into transactions with the following entities that require key management personnel to act in the capacity of director as part of their Racing Victoria employment – VicRacing Pty Ltd, Australian Racing Museum Ltd, Racing Australia Ltd, Racing Analytical Services Ltd, VicRacing Audio Services Pty Ltd (previously 3UZ Pty Ltd or RSN), and Sports Wagering Integrity Monitoring Ltd. These transactions included both revenue and operational expenditure, with expenditure incurred only after approval by the Racing Victoria Board. The consolidated entity also provided administrative services to some of these director related entities on normal commercial terms and conditions as agreed by the parties.

(d) Other related party disclosures

Transactions with member related entities

During the financial period the consolidated entity entered into transactions with current membership entities of Racing Victoria. These member entities comprise club members and industry body members as listed under the current membership within note 1 of the financial report. These transactions included revenue and expenditure, with expenditure incurred only after approval by the Racing Victoria Board. The consolidated entity also provided loans to some club members on terms and conditions as agreed by the parties, refer to note 4.

Ownership of racehorses

Key management personnel, including certain directors, participate in the thoroughbred racing industry via means of ownership of racehorses either individually or through related entities. This involvement is on terms and conditions no more favourable than other participants in the thoroughbred racing industry. Key management personnel stand aside from decision making as required to manage potential conflicts of interest.

(e) List of subsidiaries

Set out below is a list of material subsidiaries of the Company.

- Racing.com Media Pty Ltd – Australia, 100% ownership interest (2025: 100%)
- RVL Media Pty Ltd – Australia, 100% ownership interest (2025: 100%)
- Racing.com Pty Ltd – Australia, 0% ownership interest (2025: 100%)
- Thoroughbred Racing Productions Pty Ltd – Australia, 100% ownership interest (2025: 100%)
- VTRI Property Pty Ltd – Australia, 100% ownership interest (2025: 100%)

Prepayments	1,662	(1,158)
Increase / (decrease) in:		
Payables	(1,347)	(5,158)
Unearned revenue	(2,078)	4,179
Provisions	2,650	(2,198)
Net cash generated by / (used in) operating activities	15,667	(18,553)

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

21. Contingent Liabilities

Under the Deed of Contribution and Indemnity with the Victoria Racing Club (VRC), the consolidated entity has indemnified the VRC against any claims against the VRC arising from its previous operation of the thoroughbred racing industry in Victoria.

Racing Victoria has guaranteed a loan facility of Cranbourne Pakenham Racing Club Inc. of $19.017 million (2025: $19.547 million).

Racing Victoria holds capital commitment obligations to clubs in line with its formalised infrastructure plan. Whilst it appropriately provides for these projects following formal submission to the State Government VRIF program, there remain other projects where a commitment has been made to the club, however it is yet to reach the constructive obligation stage in the cycle.

From time to time the consolidated entity may be subject to legal claims, however at signing date the awareness and quantum of any such claims remain unknown.

22. Subsequent Events

On 19 August 2026, the Australian Parliament passed the Interactive Gambling Amendment (Gambling Reform) Bill 2026, introducing significant restrictions on wagering advertising and related promotional activities. The reforms are scheduled to commence from 1 January 2027 and are intended to reduce community exposure to wagering advertising and strengthen gambling harm minimisation measures.

Other than as disclosed above, no matter or circumstance has arisen since the end of the reporting period that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial periods.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

23. Material Accounting Policies

The following material accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Borrowings and Borrowing Costs

Borrowings are recorded initially at fair value, net of transaction costs. Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the borrowing using the effective interest rate method.

Other borrowing costs are recognised as an expense in the period in which they are incurred.

(b) Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

(c) Employee Benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave, and sick leave when it is probable that settlement will be required, and they are capable of being measured reliably.

Liabilities recognised in respect of employee benefits expected to be settled within 12 months are measured at their nominal values, using the remuneration rate expected to apply at the time of settlement.

Liabilities recognised in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the consolidated entity in respect of services provided by employees up to the reporting date.

(d) Financial assets

Classification and measurement of financial assets

All recognised financial assets that are within the scope of AASB 9 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Specifically:

- debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, are subsequently measured at amortised cost;
- all other debt investments and equity investments are subsequently measured at fair value through profit and loss (FVTPL).

Despite the foregoing, the consolidated entity may make the following irrevocable election/designation at initial recognition of a financial asset:

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

- the consolidated entity may irrevocably elect to present subsequent changes in fair value of an equity investment that is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 applies in other comprehensive income; and
- the consolidated entity may irrevocably designate a debt investment that meets the amortised cost or fair value through other comprehensive income (FVTOCI) criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Debt instruments that are subsequently measured at amortised cost or at FVTOCI are subject to impairment testing.

Impairment of financial assets

In relation to the impairment of financial assets, AASB 9 requires an expected credit loss (ECL) model as opposed to an incurred credit loss model under IAS 39. The ECL model requires the consolidated entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The consolidated entity reviewed its related party loan receivables for impairment under the General Approach to determine whether there has been a Significant Increase in Credit Risk (SICR) since initial recognition and whether loans are credit impaired. This determines whether the loans are in Stage 1, Stage 2, or Stage 3, which in turn determines both;

- the amount of ECL to be recognised: 12-month ECL or Lifetime ECL; and
- the amount of interest income to be recognised in future reporting periods: Effective Interest Rate (EIR) based on gross carrying amount of the loan which excludes ECL or the net carrying amount (i.e. the amortised cost) which includes ECL.

Lifetime ECL are the ECL that result from all possible default events over the expected life of loans whereas 12-month ECL are a portion of Lifetime ECL that represent the ECL that result from default events that are possible within 12 months of the reporting date.

The consolidated entity reviewed its related party loans and assessed that none of the loans have suffered SICR with no further credit losses recognised within 12 months of the reporting date.

Loss allowances for trade receivables are measured at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the consolidated entity considers reasonable and supportable information that is relevant and available without undue cost or effort. This is determined by reference to past default experience.

(e) Financial Instruments issued by the consolidated entity

Debt and Equity Instruments

Debt and equity instruments are classified as either liabilities or as equity in accordance with the substance of the contractual arrangement.

Interest

Interest is classified as an expense consistent with the balance sheet classification of the related debt.

(f) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

(i) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or

(ii) for trade receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from or payable to the taxation authority is classified as operating cash flows.

(g) Impairment of Other Tangible and Intangible Assets

At each reporting date, the consolidated entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the consolidated entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

Where a reasonable and consistent basis can be identified, corporate assets are also allocated to individual cash generating units, otherwise they are allocated the smallest group of cash generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. Notwithstanding this, value in use is depreciated replacement cost of an asset when the future economic benefits of the asset are not primarily dependent on the asset's ability to generate net cash inflows and where the consolidated entity would, if deprived of the asset, replace its remaining future economic benefits. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior periods.

A reversal of an impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the reversal of the impairment loss is treated as a revaluation increase.

(h) Intangible Assets

Capitalised Software and Databases

Capitalised software is recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight-line basis over the estimated useful life of the software being three to five years.

Configuration and customisation of a third-party's cloud-based software, in a Software as a Service (SaaS) computing arrangement, are expensed in line with IFRS Interpretations Committee accounting guidelines released in April 2021.

Mastheads

Mastheads recognised by the Group by nature have an indefinite useful life and are not amortised. Each period, the useful life of this asset is reviewed to determine whether events and circumstances continue to support an indefinite useful life assessment for the asset. Such assets are tested for impairment in accordance with the policy stated in note 23(g).

Domain Names

Domain Names recognised by the Group have an indefinite useful life and are not amortised. Each period, the useful life of this asset is reviewed to determine whether events and circumstances continue to support an indefinite useful life assessment for the asset. Such assets are tested for impairment in accordance with the policy stated in note 23(g).

(i) Leased Assets

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(j) Payables

Trade payables and other accounts payable are recognised when the consolidated entity becomes obliged to make future payments resulting from the purchase of goods and services. Trade and other payables are stated at amortised cost.

(k) Property, Plant and Equipment

Plant and equipment, buildings and infrastructure capital are stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is recognised on property, plant and equipment, including freehold buildings but excluding land. Depreciation is calculated on a straight-line basis to write-off the net cost or other revalued amount of each asset over its expected useful life to its residual value. Leasehold improvements are depreciated over the period of the lease or estimated useful life; whichever is the shorter, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period, with effect of any changes recognised on a prospective basis.

The following estimated useful lives are used in the calculation of depreciation:

- Buildings and Improvements 10 to 40 years
- Plant and Equipment 2 to 20 years
- Infrastructure Capital 5 to 10 years

During the period the consolidated entity undertook the management of projects which are part of the capital infrastructure program. These projects are individually assessed for appropriateness of recognition as assets within the consolidated statement of financial position of the consolidated entity. The key elements for recognition of any capital expenditure as an asset are control and ensuring that future economic benefits will flow to the consolidated entity.

(l) Provisions

Provisions are recognised when the consolidated entity has a present obligation (legal or constructive) as a result of a past event, it is probable that the consolidated entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation, the future sacrifice for economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cashflows estimated to settle the present obligation, its carrying amount is the present value of those cashflows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Infrastructure

Racing Victoria holds capital commitment obligations to Clubs in line with its formalised infrastructure plan. These approved infrastructure projects are appropriately provided for following formal submission to the State Government's VRIF program. The provision is reviewed annually by management having regard to the most recent infrastructure schedule and the status of each project within.

Accident Insurance Fund

Prior to 1 September 1985 the Fund was an authorised insurer for the purposes of the Workers Compensation Act 1958. The provision for outstanding claims is disclosed at note 11. The provision is reviewed annually by management having regard for material events impacting the calculation of the provision.

(m) Revenue

The consolidated entity recognises revenue when it transfers control over a product or service to a customer. Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Wagering Revenue

Thoroughbred racing industry revenue is recognised when receivable under the joint venture agreements with the Tabcorp group of companies.

Race fields revenue is recognised when receivable under the policy applied to all licensed wagering service providers for the publication and use of Victorian thoroughbred race fields.

Rendering of Services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of the contract is determined as follows:

- installation fees are recognised by reference to the stage of completion of the installation, determined as the proportion of the total time expected to install that has elapsed at reporting date;
- servicing fees included in the price of products sold are recognised by reference to the proportion of the total cost of providing the servicing for the product sold, considering historical trends in the number of services actually provided on past goods sold; and
- revenue from time and material contracts is recognised at the contractual rates as labour hours are delivered and direct expenses incurred.

Contributions of Assets

Revenue arising from the contribution of assets is recognised when the consolidated entity gains control of the contribution or the right to receive the contribution.

Interest Revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding and effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the assets carrying amount.

Government Grants

Government grants are not recognised until there is reasonable assurance that the consolidated entity will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the consolidated entity recognises as expenses the related costs for which the grants are intended to compensate. Specifically, Government grants whose primary condition is that the consolidated entity should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the consolidated entity with no future related costs are recognised in profit or loss in the period in which they become receivable.

VOBIS Nominations

VOBIS nomination fees received are deferred into unearned revenue, to be recognised as revenue in future years based upon the performance obligation of VOBIS bonuses on offer to eligible horses dependent on age.

(n) Income Tax

The consolidated entity is exempt from Income Tax under section 50-45 of the Income Tax Assessment Act.

(o) Investments in Associates

An associate is an entity over which the consolidated entity has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with AASB 5. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of AASB 9 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with AASB 136 'Impairment of Assets' as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with AASB 136 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale.

(p) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Racing Victoria ("consolidated entity" or "parent entity") as at 30 June 2026 and the results of all subsidiaries for the period then ended. Racing Victoria and its subsidiaries together are referred to in this financial report as the group or the consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the consolidated entity has control. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. When the Company

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Surplus or deficit and each component of other comprehensive income are attributed to the owners of the Company.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. Investments in subsidiaries are recognised at cost.

(q) Parent Entity Financial Information

The financial information for the parent entity, Racing Victoria Limited, disclosed in note 18 has been prepared on the same basis as the consolidated financial statements.

(r) Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of the acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

(s) New Accounting Standards and Interpretations

The Group adopted the following standard and amendments which did not have any impact on the amounts recognised in current or prior periods.

From 1 July 2024:

- AASB 2023-1 Amendments to Australian Accounting Standards – Supplier Finance Arrangements
- AASB 2020-1 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current
- AASB 2020-6 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current - Deferral of Effective Date
- AASB 2022-6 Amendments to Australian Accounting Standards – Classification Non-current Liabilities with Covenants
- AASB 2022-5 Amendments to Australian Accounting Standards – Lease Liability in a Sale and Leaseback
- AASB 2022-10 Amendments to Australian Accounting Standards - Fair Value Measurement of Non-Financial assets of Not-for-Profit Public Sector Entities

From 1 July 2025:

- AASB 2023-5 - Amendments to Australian Accounting Standards – Lack of Exchangeability
- AASB 2026-1 Amendments to Australian Accounting Standards – Disclosures about Uncertainties in the Financial Statements

Consolidated Entity Disclosure Statement

FOR THE YEAR ENDED 30 JUNE 2026

Entity Name	Body Corporate, Partnership, or Trust	Place Incorporated / Formed	Share Capital % Held Directly or Indirectly by the Company in the Body Corporate		Australian or Foreign Tax Resident
			30 JUNE 2026	30 JUNE 2025	
Racing Victoria Ltd	Body Corporate	Australia	n/a	n/a	Australian
Racing.com Media Pty Ltd	Body Corporate	Australia	100%	100%	Australian
RVL Media Pty Ltd	Body Corporate	Australia	100%	100%	Australian
Racing.com Pty Ltd	Body Corporate	Australia	n/a	100%	Australian
Thoroughbred Racing Productions Pty Ltd	Body Corporate	Australia	100%	100%	Australian
VTRI Property Pty Ltd	Body Corporate	Australia	100%	100%	Australian

Racing.com Media Pty Ltd, RVL Media Pty Ltd, Racing.com Pty Ltd, and Thoroughbred Racing Productions Pty Ltd are all media related subsidiaries established for the primary purpose of the encouragement and promotion of Victorian thoroughbred horse racing, by holding, managing and exploiting media broadcasting and intellectual property rights, facilitating the payments for media rights to Racing Victoria, and undertaking any other activities the Board considers consistent with the encouragement and promotion of thoroughbred horse racing.

Racing.com Pty Ltd was deregistered on 19 February 2026.

VTRI Property Pty Ltd was established for the purpose of the encouragement and promotion of Victorian thoroughbred horse racing, as well as national and international thoroughbred horse racing, by the ownership and management of assets and provision of other services.

Basis of preparation

The Consolidated Entity Disclosure Statement has been prepared in accordance with the Corporations Act 2001 and includes required information for each entity that was part of the consolidated entity as at the end of the financial year. The Consolidated Entity Disclosure Statement includes only those entities consolidated as at the end of the financial year in accordance with AASB 10 Consolidated Financial Statements (AASB 10). The consolidated entity is exempt from Income Tax under section 50-45 of the Income Tax Assessment Act.

Determination of Tax Residency

Section 295 (3A) of the Corporations Act 2001 defines tax residency as having the meaning in the Income Tax Assessment Act 1997. The determination of tax residency involves judgment as there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency. In determining tax residency, the consolidated entity has applied the following interpretations:

Australian Tax Residency

The consolidated entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance (Tax Ruling TR 2018/5).
