Racing Victoria Limited ACN 096 917 930
Annual Report for the financial period ended 30 June 2025

Directors' Report

The directors of Racing Victoria Limited (Racing Victoria or the 'Company') submit herewith the annual financial report of the company for the financial year ended 30 June 2026. In compliance with the provisions of the Corporations Act 2001 (Cth) (Corporations Act), the directors' report follows.

The names of the directors of the Company during or since the end of the financial year are as follows.

CURRENT DIRECTORS

TIM EDDY (Chair)

APPOINTED DIRECTOR 9 DECEMBER 2019 AND CHAIR 21 JUNE 2024

Mr Eddy had a successful 40-year career at Ernst & Young including the positions of Managing Partner Operations - Oceania, Global Vice Chair – EY Global Services and National Managing Partner – EY Transaction Advisory Services. He currently serves as a Director of Western Sydney Airport, Chair of The Red Fox Group, Rennie Advisory and Bio101 Financial Advisory.

Mr Eddy is a member of the Racing Victoria Audit, Risk & Welfare Sub Committee and the Racing Sub Committee. Mr Eddy is Chair of the Racing Victoria & Country Racing Victoria Steering Committee and the Racing Victoria Members Consultative Committee. Mr Eddy is a Director of Racing Australia and is also Chair of Equine Welfare Advisory Council.

TIM ROURKE (Deputy Chair)

APPOINTED DIRECTOR 14 JUNE 2024 AND DEPUTY CHAIR 30 SEPTEMBER 2025

Mr Rourke has extensive business experience and is the current Chief Executive Officer and director of CitiPower, Powercor, United Energy and related companies. Mr Rourke also currently serves as a director of Energy Networks Australia.

Prior to his current appointments, Mr Rourke has held various senior positions across the energy sector since 1995 and is also an active thoroughbred owner and breeder.

Mr Rourke is Chair of the Racing Victoria Audit, Risk & Welfare Sub Committee. Mr Rourke is also a member of the Racing Sub Committee.

AARON MORRISON (CEO)

APPOINTED 20 AUGUST 2024

Prior to his appointment as CEO, Mr Morrison was the Chief Financial Officer / Chief Operating Officer of Racing Victoria since 2017. Mr Morrison has had an extensive career across the entertainment, hospitality and gaming sectors including as Chief Executive Officer of the Sand Hill Road Group and senior executive and advisory positions with Crown Resorts Ltd and SkyCity Entertainment Group.

Mr Morrison is a Director of Racing Victoria subsidiaries; Racing.com Media Pty Ltd, RVL Media Pty Ltd, Thoroughbred Racing Productions (Victoria) Pty Ltd, VTRI Property Pty Ltd, VicRacing Audio Services Pty Ltd (formerly 3UZ Pty Ltd), and VicRacing Pty Ltd.

KATE JOEL

APPOINTED DIRECTOR 9 OCTOBER 2017

Ms Joel has been a business consultant for over 30 years and currently serves on the Board of the Florey Institute of Neuroscience & Mental Health, having served on the Florey Foundation since 2017. Previously, Ms Joel was CEO of Leonard Joel Auction House and was a member of the Melbourne and Olympic Parks Trust and the Board of Harness Racing Victoria. Prior to joining the Board, Kate served on the RV Integrity Council from 2014-2017. Kate grew up riding trackwork and her involvement in the racing industry spans over 55 years.

Ms Joel is Chair of the Racing Integrity & Equine Welfare Sub Committee.

ROSS LANYON OAM

APPOINTED DIRECTOR 9 OCTOBER 2017

Mr Lanyon is the Managing Director of ENG Media which operates in Regional Victoria. He has received an OAM for his services to thoroughbred racing and the Community of Mildura and was the Chair of Country Racing Victoria from 2011 to 2014. Mr Lanyon is Chair of the Mallee Health Foundation and is also a Director of Mildura District Hospital Fund and Clay Hero.

Mr Lanyon is a Director of Thoroughbred Racing Productions (Victoria) Pty Ltd. Mr Lanyon is also a member of the Racing Victoria & Country Racing Victoria Steering Committee and the Racing Integrity & Equine Welfare Sub Committee.

PRINCIPAL ACTIVITIES, STRATEGY AND OBJECTIVES

The consolidated entity's principal activities in the course of the financial period were related to the administration and promotion of thoroughbred racing in the State of Victoria.

Racing Victoria has a critical stewardship role to lead the Victorian Thoroughbred Racing Industry (VTRI), with a focus on growing the sport and ensuring the ongoing sustainability of the industry as a whole, for the benefit of all industry stakeholders.

Racing Victoria's key goals and objectives are to:

- ✓ *Manage thoroughbred racing to maintain Victoria's pre-eminence;*
- ✓ *Maintain the highest standards of integrity and equine and participant safety and welfare;*
- ✓ *Manage the racing calendar to maximise engagement;*
- ✓ *Encourage sustainable participation;*
- ✓ *Meet social obligations;*
- ✓ *Optimise economic benefits;*
- ✓ *Ensure efficient operation of the industry;*
- ✓ *Focus on sustainable industry funding;*
- ✓ *Advocate and promote the industry;*
- ✓ *Maintain independence.*

DIVIDENDS

Under the Company's constitution no dividends may be declared or paid.

REVIEW OF OPERATIONS

The net surplus of the consolidated entity for the financial year ended 30 June 2026 was $0.773 million compared to a net deficit of $8.885 million in the prior year.

The consolidated entity reported a net surplus in 2026 following two consecutive years of planned budget deficits. The result reflects the first full reporting period under the revised industry funding framework, together with a continued focus on financial sustainability and disciplined cost management.

The 2026 reported result also reflects the impact of several items outside normal business operations, including matters relating to historical periods, investment return volatility, and one-off strategic initiatives undertaken for the future benefit of the VTRI. Following adjustment, the normalised net surplus result of $3.101 million reflected a significant improvement on the prior year.

Total

The Racing Victoria business model is designed to generate sufficient revenue to enable ongoing investment in the delivery of world-class racing and to support the long-term sustainability of the VTRI and its various participants and stakeholders.

The consolidated entity has a significant reliance on wagering-related revenue, with approximately 84% of total revenue derived either directly from race fields product fees or indirectly through media rights fees and Point of Consumption Tax (PoCT) distributions, each of which is influenced by wagering activity and performance.

Excluding the expenditure required to govern, operate, administer, market and promote Victorian thoroughbred racing, which represents approximately 11% of total revenue, the majority of Racing Victoria expenditure is directed towards funding, supporting, and growing the industry, its stakeholders and participant base.

The principal areas of income and investment are outlined below.

Revenue

The total revenue from operations increased by 1.0% to $531.882 million versus the prior year (2025: $526.501 million).

Total wagering revenue for the full year decreased by $2.
year under the revised industry funding framework follow

Expenditure

Total expenditure for the full year decreased to $530.751

Industry Expenditure

Industry expenditure reflects targeted funding and invest
accounts for the majority of the consolidated entity expe

- Prizemoney and VOBIS bonuses on offer remain

The consolidated entity's contribution towards this exper
$265.970 million. Savings arising from the planned reduc
prizemoney enhancements, including key Spring Racing
prizemoney. The variable nature of items such as bonus s
abandonments also has an impact on the final contributi

It should be noted that the consolidated entity's reported contribution does not include prizemoney directed to welfare programs, top-up contributions made by clubs and other entities, or any retained amounts.

- Club support including both direct funding and infrastructure related expenditure increased on prior year.

Club funding expenditure increased by $1.469 million (+1.6%) to $91.422 million. The annual increase is largely due to indexation related arrangements and variable club funding streams. Club funding is undertaken in accordance with funding arrangements in place with each club, which have both fixed and performance-based components.

Infrastructure expenditure increased by $1.447 million (+28.2%) to $6.573 million, driven by continued investment in infrastructure projects underway to support club growth and long-term development.

- Industry and participant support spend reflects the continued commitment to support the industry through various initiatives and programs.

This support increased by $3.485 million (+9.5%) to $40.300 million, and most notably includes the participant and thoroughbred welfare programs that are primarily funded through the allocation of a small percentage of prizemoney on offer. Other forms of support include jockey ride fees, jockey insurance coverage, workforce development including the apprentice program, and owner initiatives. The increase on the prior year was primarily driven by rising jockey Workcover costs arising from an uplift in historical claims experience, fuel cost relief subsidies paid to jockeys and trainers, the implementation of new digital ticketing for owners, Victorian bushfire appeal support, and additional one-off support associated with the Australian Racing Museum's display exit from the National Sports Museum to pursue its revised strategy of adopting a more diverse exhibition model that showcases racing's rich history across a broader footprint.

Operational Expenditure (including Operating, Media & Wagering Expenditure)

Total operational expenditure decreased by $12.154 million (-9.8%) to $111.303 million.

Gross operational expenditure on a normalised basis decreased by $7.909 million (-6.7%) compared to the prior year. This outcome enabled the organisation to achieve its $20 million operational expenditure reduction target, as committed to stakeholders, while preserving important industry investments including prizemoney returns. The consolidated entity will continue to review operations and pursue further efficiencies to support sustainable financial outcomes in future periods. Initiatives undertaken during the reporting year included new arrangements across the media operational supply chain and targeted cost reductions within key service and administrative functions.

Operating expenditure captures the core costs of managing and administering the VTRI, including:

- racing operations (including race day services, vets and quarantine);
- integrity and stewarding;
- media and wagering;
- marketing, public relations and communications; and
- executive, strategy, administration, technology, legal, risk and compliance.

Highlighting operational expenditure separate from other expenditure activities allows for better external benchmarking and an assessment of the efficiency of the stewardship of Victorian thoroughbred racing operations. Management continues to pursue cost control and process efficiency improvements across all key activities.

Welfare and Community

Included within industry and operating expenditure is Ra
community initiatives, as outlined below.

Equine welfare remains fundamental to the sustainability
invest in programs and initiatives that support the highes
thoroughbred's life, both on and off the racetrack. Total e
period was $5.063 million.

Racing Victoria also continued to provide essential progr
their families, while promoting health, safety and wellbei
Total expenditure on jockey welfare (excluding Workcove
was $2.687 million and $4.438 million, respectively.

Following the devastating bushfires that impacted Victor
provided important support to members of the Victorian
broadly. The appeal raised in excess of $200,000, which
support for the Country Fire Authority, livestock transpor
services for affected individuals.

Racing Victoria also made meaningful contributions to a
throughout the reporting period, including a significant c
partnership with Country Racing Victoria and Southside

Investment Activities

Racing Victoria holds and invests financial assets on beha
(ISF). The purpose of the ISF is to ensure that the industr
sustainability of the industry, support the operating finan
support during times of operational uncertainty, provide
infrastructure investments and to assist with finance and

The increase from the prior year reflects the combined ef
of $2.500 million arising from the surplus cash generated
impact of market volatility.

CHANGES IN STATE OF AFFAIRS

There was no significant change in the state of affairs of t

SUBSEQUENT EVENTS

On 19 August 2026, the Australian Parliament passed the Interactive Gambling Amendment (Gambling Reform) Bill 2026, introducing significant restrictions on wagering advertising and related promotional activities. The reforms are scheduled to commence from 1 January 2027 and are intended to reduce community exposure to wagering advertising and strengthen gambling harm minimisation measures.

Other than as disclosed above, no matter or circumstance has arisen since the end of the reporting period that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial periods.

FUTURE DEVELOPMENTS

Following the passage of the Interactive Gambling Amendment (Gambling Reform) Bill 2026, the consolidated entity will continue to assess the potential implications of the reforms. Uncertainty remains regarding the practical implementation of certain measures by WSPs and the extent to which the reforms may influence wagering activity and industry funding outcomes, noting that racing will be treated differently from other products and may be exempt from some of the restrictions otherwise applicable. The extent to which is still to be determined as regulations are implemented. As a result, the potential financial impact on the consolidated entity, if any, cannot presently be determined with reasonable certainty.

Other than as disclosed above, disclosure of information regarding likely developments in the operations of the consolidated entity and the expected results of those operations in future financial periods would be likely to result in unreasonable prejudice to the consolidated entity. Accordingly, such information has not been included in this report.

DIRECTORS' MEETINGS

The following table sets out the number of directors' meetings and committee meetings held during the financial period and the number of meetings attended by each director (while they were a director or committee member). During the financial year, 12 board meetings, 6 audit risk & welfare committee (ARWSC) meetings, 5 racing committee meetings, and 6 racing integrity & equine welfare committee (RIEWSC) meetings were held.

Other Information

Other Information is financial and non-financial informa which is provided in addition to the Financial Report ar responsible for the Other Information.

Our opinion on the Financial Report does not cover the express an audit opinion or any form of assurance con

In connection with our audit of the Financial Report, o doing so, we consider whether the Other Information or our knowledge obtained in the audit, or otherwise a

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and in compliance with *Australian Accounting Standards - Simplified Disclosures* and the *Corporations Regulations 2001*
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Group, and that is free from material misstatement, whether due to fraud or error
- assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/media/apzlwn0y/ar3_2024.pdf. This description forms part of our Auditor's Report.

(ii) Current Membership

The current membership of Racing Victoria now comprises of:

Club members: Country Racing Victoria, Melbourne Racing Club, Moonee Valley Racing Club, Victoria Racing Club & Cranbourne Pakenham Racing Club. Industry body members: Australian Jumping Racing Association, Australian Services Union (Victorian Branch), Australian Trainers Association (Victorian Division), Australian Workers Union (Victorian Division), Media and Entertainment Arts Alliance, Thoroughbred Breeders Victoria, Thoroughbred Racehorse Owners Association, United Workers Union, Victorian Bookmakers Association & Victorian Jockeys Association.

(iii) Victorian Thoroughbred Racing Industry Revenue and Grants

On 16 August 2012, the Victorian Racing Industry (VRI) entered into joint venture arrangements with the Tabcorp group of companies covering the VRI entitlement to receive a distribution of joint venture profits and other program and product supply fees over a 12-year term. On 18 December 2023, a new Victorian wagering licence was awarded for the period beyond 16 August 2024. In connection with that new licence, the State Government and the VRI confirmed the discontinuation of the historical joint venture industry funding arrangements tied to the Victorian wagering licensee. To provide the VRI with greater certainty of its financial outcomes and to assist the transition to a new industry funding model, the joint venture parties agreed to amend and restate the joint venture arrangements covering the final period of the current licence from 1 June 2023 to 15 August 2024 including transition out. An Umbrella Deed was executed on 1 March 2024 which captured the terms of payments to be made to the VRI by Tabcorp in connection with the winding up and transitioning out of the joint venture.

New industry funding arrangements commencing from 1 July 2024 were agreed between the Victorian State Government and the VRI. These arrangements sought to maintain VRI funding at no less favourable levels to those under the previous joint venture arrangements and included:

- From 1 July 2024, the State Government increased the Point of Consumption Tax (PoCT) levied on wagering by Victorian residents, with the rate of PoCT collected increasing from 10% to 15% of Net Wagering Revenue (NWR). The VRI distribution payment agreed to be paid to the VRI by the State Government increased from 3.5% to 7.5% of NWR effective from the same date.
- On 30 August 2024, the VRI together with the State Government executed the VRI Funding Deed. This ten-year agreement, which was backdated to commence on 16 August 2024, provides a new fixed industry distribution stream to the VRI.

The thoroughbred, harness and greyhound racing codes have agreed on an appropriate code sharing arrangement of the above VRI funding.

Material wagering income is also received by the VTRI in the form of race fields fees. Other significant income is generated via the exploitation of media rights in both domestic and international markets held by a fully owned subsidiary RVL Media Pty Ltd, advertising revenues received through owned media assets, returns from investments and the receipt of various Government grants.

Critical judgements in applying the consolidated entity's accounting policies

Judgements made by management in the application of the consolidated entity's accounting policies that have significant effects on the financial statements and estimates with a significant risk of material adjustments in the next period are disclosed, where applicable, in the relevant notes to the financial statements.

Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at balance date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

- **Impairment of Indefinite Life Intangible Assets**
  As described in note 23(g), the consolidated entity assesses the recoverable amount of indefinite life intangible assets, by estimating the future cash flows, growth and discount rate at the end of each annual reporting period.

- **Provisions**
  As described in note 23(c) and 23(l), the consolidated entity estimates the present value of current obligations based on management estimate for general provisions (including infrastructure expenditure), Workcover, employee provisions at the end of each annual reporting period.

- **Useful lives of Property, Plant & Equipment and Computer Software & Databases**
  As described in note 23(k), the consolidated entity reviews the estimated useful lives of property, plant and equipment at the end of each annual reporting period.

- **Contingent Liabilities**
  The consolidated entity makes judgement on any potential liability that may occur depending on the outcome of an uncertain future event. These liabilities are listed under note 21.

All other material accounting policies adopted in the preparation and presentation of the financial report are included under note 23.

Transactions with member related entities

During the financial period the consolidated entity entered into transactions with current membership entities of Racing Victoria. These member entities comprise club members and industry body members as listed under the current membership within note 1 of the financial report. These transactions included revenue and expenditure, with expenditure incurred only after approval by the Racing Victoria Board. The consolidated entity also provided loans to some club members on terms and conditions as agreed by the parties, refer to note 4.

Ownership of racehorses

Key management personnel, including certain directors, participate in the thoroughbred racing industry via means of ownership of racehorses either individually or through related entities. This involvement is on terms and conditions no more favourable than other participants in the thoroughbred racing industry. Key management personnel stand aside from decision making as required to manage potential conflicts of interest.

FOR THE YEAR ENDED 30 JUNE 2026

21. Contingent Liabilities

- Under the Deed of Contribution and Indemnity with the Victoria Racing Club (VRC), the consolidated entity has indemnified the VRC against any claims against the VRC arising from its previous operation of the thoroughbred racing industry in Victoria.
- Racing Victoria has guaranteed a loan facility of Cranbourne Pakenham Racing Club Inc. of $19.017 million (2025: $19.547 million).
- Racing Victoria holds capital commitment obligations to clubs in line with its formalised infrastructure plan. Whilst it appropriately provides for these projects following formal submission to the State Government VRIF program, there remain other projects where a commitment has been made to the club, however it is yet to reach the constructive obligation stage in the cycle.
- From time to time the consolidated entity may be subject to legal claims, however at signing date the awareness and quantum of any such claims remain unknown.

22. Subsequent Events

On 19 August 2026, the Australian Parliament passed the Interactive Gambling Amendment (Gambling Reform) Bill 2026, introducing significant restrictions on wagering advertising and related promotional activities. The reforms are scheduled to commence from 1 January 2027 and are intended to reduce community exposure to wagering advertising and strengthen gambling harm minimisation measures.

Other than as disclosed above, no matter or circumstance has arisen since the end of the reporting period that has significantly affected, or may significantly affect, the operations of the consolidated entity, the results of those operations, or the state of affairs of the consolidated entity in future financial periods.

23. Material Accounting Policies

The following material accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Borrowings and Borrowing Costs

Borrowings are recorded initially at fair value, net of transaction costs. Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the borrowing using the effective interest rate method.

Other borrowing costs are recognised as an expense in the period in which they are incurred.

(b) Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Notes to the financial state

FOR THE YEAR ENDED 30 JUNE 2026

(c) Employee Benefits

A liability is recognised for benefits accruing to e leave, long service leave, and sick leave when it is are capable of being measured reliably.

Liabilities recognised in respect of employee ben measured at their nominal values, using the remu settlement.

Liabilities recognised in respect of employee ben months are measured as the present value of the consolidated entity in respect of services provide

Impairment of financial assets

In relation to the impairment of financial assets, AASB opposed to an incurred credit loss model under IAS 39 account for expected credit losses and changes in tho reflect changes in credit risk since initial recognition o necessary for a credit event to have occurred before c

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

The consolidated entity reviewed its related party loan receivables for impairment under the General Approach to determine whether there has been a Significant Increase in Credit Risk (SICR) since initial recognition and whether loans are credit impaired. This determines whether the loans are in Stage 1, Stage 2, or Stage 3, which in turn determines both;

- the amount of ECL to be recognised: 12-month ECL or Lifetime ECL; and
- the amount of interest income to be recognised in future reporting periods: Effective Interest Rate (EIR) based on gross carrying amount of the loan which excludes ECL or the net carrying amount (i.e. the amortised cost) which includes ECL.

Lifetime ECL are the ECL that result from all possible default events over the expected life of loans whereas 12-month ECL are a portion of Lifetime ECL that represent the ECL that result from default events that are possible within 12 months of the reporting date.

The consolidated entity reviewed its related party loans and assessed that none of the loans have suffered SICR with no further credit losses recognised within 12 months of the reporting date.

Loss allowances for trade receivables are measured at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the consolidated entity considers reasonable and supportable information that is relevant and available without undue cost or effort. This is determined by reference to past default experience.

(e) Financial Instruments issued by the consolidated entity

Debt and Equity Instruments

Debt and equity instruments are classified as either liabilities or as equity in accordance with the substance of the contractual arrangement.

Interest

Interest is classified as an expense consistent with the balance sheet classification of the related debt.

(f) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

(i) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or

(ii) for trade receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from or payable to the taxation authority is classified as operating cash flows.

(g) Impairment of Other Tangible and Intangible Assets

Notes to the financial state

FOR THE YEAR ENDED 30 JUNE 2026

(h) Intangible Assets

Capitalised Software and Databases

Capitalised software is recorded at cost less accu is charged on a straight-line basis over the estima years.

Configuration and customisation of a third-party' (SaaS) computing arrangement, are expensed in guidelines released in April 2021.

Mastheads

Mastheads recognised by the Group by nature ha Each period, the useful life of this asset is reviewe

continue to support an indefinite useful life assessment for the asset. Such assets are tested for impairment in accordance with the policy stated in note 23(g).

Domain Names

Domain Names recognised by the Group have an indefinite useful life and are not amortised. Each period, the useful life of this asset is reviewed to determine whether events and circumstances continue to support an indefinite useful life assessment for the asset. Such assets are tested for impairment in accordance with the policy stated in note 23(g).

(i) Leased Assets

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate at the commencement date;

Notes to the financial state

FOR THE YEAR ENDED 30 JUNE 2026

- amounts expected to be payable under a resid
- the exercise price under a purchase option tha payments in an optional renewal period if the option, and penalties for early termination of a terminate early.

The lease liability is measured at amortised cost when there is a change in future lease payments change in the Group's estimate of the amount ex guarantee, if the Group changes its assessment o termination option or if there is a revised in-subst

When the lease liability is remeasured in this way amount of the right-of-use asset, or is recorded i use asset has been reduced to zero.

(j) Payables

Trade payables and other accounts payable are r obliged to make future payments resulting from t payables are stated at amortised cost.

(k) Property, Plant and Equipment

Plant and equipment, buildings and infrastructure depreciation and impairment. Cost includes expe of the item. In the event that settlement of all or determined by discounting the amounts payable acquisition.

Depreciation is recognised on property, plant and excluding land. Depreciation is calculated on a st revalued amount of each asset over its expected improvements are depreciated over the period o shorter, using the straight-line method. The estim method are reviewed at the end of each annual r recognised on a prospective basis.

The following estimated useful lives are used in th

- Buildings and Improvements 10 to 40 years
- Plant and Equipment 2 to 20 years
- Infrastructure Capital 5 to 10 years

During the period the consolidated entity undert the capital infrastructure program. These project recognition as assets within the consolidated sta

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

The key elements for recognition of any capital expenditure as an asset are control and ensuring that future economic benefits will flow to the consolidated entity.

(l) Provisions

Provisions are recognised when the consolidated entity has a present obligation (legal or constructive) as a result of a past event, it is probable that the consolidated entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation, the future sacrifice for economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cashflows estimated to settle the present obligation, its carrying amount is the present value of those cashflows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Infrastructure

Racing Victoria holds capital commitment obligations to Clubs in line with its formalised infrastructure plan. These approved infrastructure projects are appropriately provided for following formal submission to the State Government's VRIF program. The provision is reviewed annually by management having regard to the most recent infrastructure schedule and the status of each project within.

Accident Insurance Fund

Prior to 1 September 1985 the Fund was an authorised insurer for the purposes of the Workers Compensation Act 1958. The provision for outstanding claims is disclosed at note 11. The provision is reviewed annually by management having regard for material events impacting the calculation of the provision.

(m) Revenue

The consolidated entity recognises revenue when it transfers control over a product or service to a customer. Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Wagering Revenue

Thoroughbred racing industry revenue is recognised when receivable under the joint venture agreements with the Tabcorp group of companies.

Race fields revenue is recognised when receivable under the policy applied to all licensed wagering service providers for the publication and use of Victorian thoroughbred race fields.

Rendering of Services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of the contract is determined as follows:

Notes to the financial state

FOR THE YEAR ENDED 30 JUNE 2026

- installation fees are recognised by reference to determined as the proportion of the total time
- servicing fees included in the price of products the total cost of providing the servicing for the number of services actually provided on past g
- revenue from time and material contracts is rec delivered and direct expenses incurred.

Contributions of Assets

Revenue arising from the contribution of assets is control of the contribution or the right to receive

Interest Revenue

Interest revenue is accrued on a time basis, by re interest rate applicable, which is the rate that exa the expected life of the financial asset to the asse

Government Grants

Government grants are not recognised until there will comply with the conditions attaching to them

Government grants are recognised in profit or los consolidated entity recognises as expenses the re compensate. Specifically, Government grants wh should purchase, construct or otherwise acquire revenue in the consolidated statement of financia systematic and rational basis over the useful lives

Government grants that are receivable as compe the purpose of giving immediate financial suppor costs are recognised in profit or loss in the period

VOBIS Nominations

VOBIS nomination fees received are deferred into future years based upon the performance obligat dependent on age.

(n) Income Tax

The consolidated entity is exempt from Income T Assessment Act.

(o) Investments in Associates

An associate is an entity over which the consolida influence is the power to participate in the financ is not control or joint control over those policies.

Notes to the financial statements

FOR THE YEAR ENDED 30 JUNE 2026

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with AASB 5. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of AASB 9 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with AASB 136 'Impairment of Assets' as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with AASB 136 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale.

(p) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Racing Victoria (''consolidated entity'' or ''parent entity'') as at 30 June 2026 and the results of all subsidiaries for the period then ended. Racing Victoria and its subsidiaries together are referred to in this financial report as the group or the consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the consolidated entity has control. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

Notes to the financial state

FOR THE YEAR ENDED 30 JUNE 2026

- the size of the Company's holding of voting rig the other vote holders;
- potential voting rights held by the Company, o
- rights arising from other contractual arrangem
- any additional facts and circumstances that ind current ability to direct the relevant activities a voting patterns at previous shareholders' meet

Consolidation of a subsidiary begins when the Co ceases when the Company loses control of the su subsidiary acquired or disposed of during the yea or loss and other comprehensive income from the the Company ceases to control the subsidiary.

Surplus or deficit and each component of other c the Company.

When necessary, adjustments are made to the fin accounting policies into line with the Group's acc

All intragroup assets and liabilities, equity, incom between members of the Group are eliminated in recognised at cost.

(q) Parent Entity Financial Information
